Product Description

High Performance Transparent Auto thinner

P-602 Universal Thinner Product Instructions for use:

Porsche thinner, made of a mixture of various aromatic hydrocarbons and esters. The product has the characteristics of good solubility, moderate volatilization speed and low odor.

P-602 universal thinner (suitable for both 1K and 2K paints), but compared with 1K and 2K special thinner, the effect is slightly worse.

The special slow drying diluent is only used for 2K series products. The specific requirements are as follows:

1. When the temperature is above 35 , the 2K series can be sprayed purely with P-604 special slow drying thinner
2. When the temperature is below 35°C, the 2K series can be mixed with P-604 slow-drying thinner and P-602 slow-drying thinner, and the usage ratio is:

1varnish/clear coat:0.5 hardener:0.2-0.3 thinner
