

Durable Gold Ready Mixed Car Paint Multifunctional Mildew Resistant

Our Product Introduction

Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Meklon
- Certification: ISO,SGS,MSDS
- Model Number: YR623M
- Minimum Order Quantity: 200cartoon
- Price: USD3.06/L-10.5/L
- Packaging Details: 1L*12,4*4,20L,200L
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 500000L/month

Product Specification

- Material: Acrylic Resin
- Usage: Car Paint, Plastic Coating
- Storage: Store In A Cool, Dry Place
- State: Liquid Coating
- Brand: Honda
- Shelf Life: 3 Years
- Application Method: Brush, Roller, Or Spray
- HS Code: 320890
- High Light: Honda Ready Mixed Car Paint
- Coverage: Various Coverage
- Product: Ready Mixed Paint
- Highlight: **Durable Ready Mixed Car Paint,
Ready Mixed Car Paint Multifunctional,
Mildew Resistant Gold Car Paint**

Product Description

Meklon GAC Honda Desert Gold YR623M Color Matching System Car Paint

The GAC Honda Desert Gold YR623M color finished paint option provides a warm, earthy aesthetic that evokes images of the vastness and richness of the desert. The gold hue has intricate layers, resembling the tones found in the sand dunes and canyon walls of famous desert landscapes.

The base color is a light gold with olive tones that gives it a natural, sandy appearance. However, unlike a typical gold metallic, the Desert Gold paint finish features multiple additional tone layers. As the light hits the surface at different angles, subtle copper, bronze and even pale brown hues are revealed among the gold, creating a richness and depth of color that is reminiscent of the multi-tonal qualities of desert sandstone. The YR623M paint formulation incorporates very fine metallic flakes that allow these layered color tones to emerge. The small particle size of the metal also ensures an even, smooth finish when applied to the vehicle. The multi-layered effect and lustrous quality of the Desert Gold paint helps give GAC Honda vehicles a sense of vitality, openness and permanence - characteristics often associated with desert environments. In short, the GAC Honda Desert Gold YR623M color finished paint offers an earthy, rich gold hue with dimensions of color akin to the subtle tones found in desert landscapes. The paint formulation utilizes small, evenly distributed metallic flakes to provide a smooth finish with just the right amount of luster while enabling the multiple gold, copper and brown tones to emerge as the light hits the surface. The effect is an aesthetically pleasing, multi-dimensional color that imbues GAC Honda models featuring the Desert Gold paint with a sense of permanence, vitality and connection to the vastness of nature.

Here are the key selling points of GAC Honda Desert Gold YR623M finished paint:

The multi-dimensional color is a major highlight. Unlike typical gold metallic paint, the Desert Gold finish features multiple tone layers that emerge under different lighting conditions, reminiscent of the subtle hues found in desert sandstone. The effect is a rich, complex gold color with depth. The smooth, even texture enhances the multi-tonal quality. The fine metallic flakes in the paint formulation allow the various gold, bronze and brown hues to be revealed while maintaining a uniform, lustrous finish without flecks or imperfections.

The paint evokes images of vast, open desert landscapes. The gold color with earthy olive tones has natural, sandy aesthetics that resonate with qualities often associated with desert environments - permanence, vitality and openness. This gives GAC Honda vehicles a distinct character.

The finish is designed for durability. The YR623M paint formulation provides resistance to fading, scratches and abrasions to help maintain the multi-dimensional aesthetics of the Desert Gold color over the long term.

The custom exterior paint option helps vehicles stand out. The warm, rich gold hue with a multi-tonal effect is distinctive and unlike typical silver, black or gray finishes. The unique Desert Gold color helps GAC Honda models showcase their individuality and differentiate their brand image. In summary, the key selling points of the GAC Honda Desert Gold YR623M finished paint revolve around its multi-dimensional, complex gold color that resembles the hues of desert landscapes; the smooth, even finish that optimizes the multi-tonal effect; the natural, sandy qualities that evoke images of the desert; the durability designed to maintain the paint's aesthetics; and the distinctive character the custom color option provides to vehicles featuring the Desert Gold finish.

Meklon GAC Honda Desert Gold YR623M Color has many advantages, including:

The multi-dimensional Desert Gold hue provides a distinct aesthetic advantage for GAC Honda vehicles. The olive-toned light gold base paint incorporates subtle copper, bronze and brown undertones that emerge under changing light conditions, imbuing the finish with a sense of richness, complexity and permanence. Unlike typical gold metallic colors, the Desert Gold paint resembles the subtle multi-tonal qualities of desert landscapes.

The YR623M paint formulation utilizes finely distributed metallic flakes that allow the various gold and brown hues to manifest while maintaining a luxuriously smooth, even texture. The result is a finish with optimal multi-tonal effect that enhances the paint's natural, earthy aesthetics. The smooth delicacy of the multi-layered gold paint also gives it an air of vitality and permanence, evoking qualities of the expansive desert.

The durable construction of the paint is designed to help maintain its unique multi-dimensional character over time. Resistance to fading, abrasions and scratches helps preserve the various tone layers that comprise the Desert Gold color, ensuring vehicles can retain their distinct visual identity.

Overall, the key advantages of GAC Honda Desert Gold YR623M color finished paint center around the finish's multi-tonal gold hue that draws inspiration from desert environments; the smooth, optimal texture that enhances this multi-dimensional color effect; the natural, sandy aesthetics evoked by the earthy gold tones; and the durability designed to maintain these multi-layered characteristics - all of which help imbue GAC Honda vehicles featuring the Desert Gold option with a distinct image of richness, permanence and connection to nature.
