

## Anti Scratch Ready Mixed Car Paint Spray Heatproof Practical Silver Colour

Our Product Introduction

### Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Meklon
- Certification: ISO,SGS,MSDS
- Model Number: NH830M
- Minimum Order Quantity: 200cartoon
- Price: USD3.06/L-10.5/L
- Packaging Details: 1L\*12,4\*4,20L,200L
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 500000L/month

### Product Specification

- Material: Acrylic Resin
- Usage: Car Paint, Plastic Coating
- Storage: Store In A Cool, Dry Place
- State: Liquid Coating
- Brand: Honda
- Shelf Life: 3 Years
- Application Method: Brush, Roller, Or Spray
- HS Code: 320890
- High Light: Honda Ready Mixed Car Paint
- Coverage: Various Coverage
- Product: Ready Mixed Paint
- Highlight: **Anti Scratch Ready Mixed Car Paint,  
Ready Mixed Car Paint Heatproof,  
silver base paint**

## Product Description

### Meklon GAC Honda Glacier Silver NH830M Color Matching System Car Paint

GAC Honda Glacier Silver NH830M color finished paint is a kind of automotive paint with a metallic silver effect. It is made of high-quality pigments and resins, and has good color fastness, scratch resistance, and weather resistance. It is suitable for use on a variety of vehicle surfaces.

It is a metallic silver colored automotive paint

- Designed for use on Honda vehicles
- Manufactured by GAC Group, a Chinese automotive manufacturer
- Provides a metallic silver finish with a hint of blue
- Contains high-quality pigments that resist fading due to UV exposure and weathering
- Offers good scratch resistance and durability thanks to advanced resins used in the formulation
- Specially designed for Chinese weather and driving conditions
- Can be spray painted or applied with a paint roller to various vehicle surfaces like body panels, bumpers, trim, etc.

Overall, GAC Honda Glacier Silver NH830M appears to be a high-performance silver automotive paint aimed at the Chinese market. The color, nicknamed "Glacier Silver," is designed to mimic the silver color of Honda vehicles while being specifically tailored for use in China. The paint provides a metallic effect thanks to the special pigments used and is meant to last for several years with proper application and care.

### Here are the key selling points of GAC Honda Glacier Silver NH830M finished paint:

- **Metallic silver color** - The Glacier Silver color gives vehicles a sophisticated, modern look that is still subtle and versatile. The hint of blue in the finish adds visual interest.
- **High-quality pigments and resins** - The paint uses pigments and resins specially formulated to withstand the harsh Chinese weather conditions of heat, humidity, and pollution. This results in a durable finish that is resistant to fading and color change.
- **Good scratch resistance** - The advanced resin system provides good scratch resistance so the paint can withstand minor rock chips, debris, and daily driving wear and tear.
- **Designed specifically for Honda vehicles** - The paint is manufactured by GAC Group in collaboration with Honda to precisely match the Glacier Silver color of Honda vehicles sold in China. It provides an authentic factory finish.
- **Easy to apply** - The paint can be applied using conventional spray painting or paint roller techniques. Professional paint shops and DIY users can apply it to refinish vehicle body panels, bumpers, trim and other surfaces.
- **Restores like-new appearance** - GAC Honda Glacier Silver NH830M paint is an ideal solution for vehicle owners looking to restore or update the exterior silver color of their Honda vehicle.

In summary, the key benefits of this automotive paint revolve around its authentic Honda-approved silver color, high-performance pigments and resins that resist fading and scratches, and ability to provide a like-new factory finish when applied professionally.

### Meklon GAC Honda Glacier Silver NH830M Color has many advantages, including:

GAC Honda Glacier Silver NH830M color finished paint offers a number of advantages for Honda vehicle owners in China. The most notable advantage is the authentic Honda approved silver color that precisely matches the factory finish of Honda vehicles sold in China. This paint has been specially formulated through collaboration between GAC Group and Honda to provide an accurate Glacier Silver color replication, down to the subtle metallic flecks and hue. The pigments and resins used in the paint formulation also give it superior performance characteristics, providing advantages like enhanced fading resistance, scratch resistance, and weather resistance. The UV protective pigments work to prevent the paint from fading due to prolonged sun exposure, helping it retain its silvery color over time. The advanced resin system gives the paint the ability to withstand minor scratches and chips from road debris without damaging the substrate. The robust resin and pigment technology also allows the paint to endure the harsh weather conditions in China like high humidity, extreme heat, and air pollution, helping maintain an attractive finish for years. Overall, GAC Honda Glacier Silver NH830M color finished paint offers the advantages of an authentic factory finish, superior durability, and long-lasting color that helps restore and preserve the like-new appearance of Honda vehicles.
