Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Meklon
- Certification: ISO,SGS,MSDS
- Model Number: B626M
- Minimum Order Quantity: 200cartoon
- Price: USD3.06/L-10.5/L
- Packaging Details: 1L*12,4*4,20L,200L
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 500000L/month

Product Specification

- Material: Acrylic Resin
- Usage: Car Paint, Plastic Coating
- Storage: Store In A Cool, Dry Place
- State: Liquid Coating
- Brand: Honda
- Shelf Life: 3 Years
- Application Method: Brush, Roller, Or Spray
- HS Code: 320890
- High Light: Honda Ready Mixed Car Paint
- Coverage: Various Coverage
- Product: Ready Mixed Paint
- Highlight: **original car paint, cheap car paint repair, easy automotive paint**

Product Description

Meklon GAC Honda Sky Blue B626M Color Matching System Car Paint

GAC Honda Sky Blue B626M color finished paint is a premium automotive paint developed by Guangzhou Automobile Group Co., Ltd. (GAC Group) in collaboration with Honda Motor Co. specifically for Honda vehicles sold in China.

The paint provides a vibrant sky blue finish that closely matches the factory color of Honda vehicles, such as the Honda City and Honda CR-V, sold in the Chinese market. The paint code "B626M" indicates that it is a metallic variant of the sky blue color. The "M" at the end denotes a special metallic pigment formulation that creates a blue base coat with microscopic aluminum flakes suspended in the top coat, resulting in a sparkly light blue hue.

The paint utilizes high-quality pigments and UV-resistant resins specially tailored for the harsh weather conditions in China, characterized by high humidity, heavy pollution, and intense sunlight. The advanced resin formulation imbues the paint with excellent scratch resistance, abrasion resistance and weather resistance, helping it withstand the rigors of daily driving. This results in a long-lasting finish that retains its vivid blue color and glossy sheen for several years with proper care and maintenance.

GAC Honda Sky Blue B626M color finished paint can be applied to various exterior panels of Honda vehicles, including bodywork, bumpers, trim, and roof, using conventional painting techniques like spray guns or manual rollers. It provides a factory-fresh appearance and an authentic color match for Honda vehicle owners seeking to paint or fully refinish their cars in the original sky blue Honda hue.

In summary, GAC Honda Sky Blue B626M color finished paint offers a vibrant metallic sky blue color finish, with precise color matching to Honda vehicles in China, while utilizing advanced resin technologies and UV-resistant pigments to deliver a long-lasting and durable exterior coating.

Here are the key selling points of GAC Honda Sky Blue B626M finished paint:

- **Vibrant sky blue metallic color** - The paint provides an attractive sparkly light blue finish that closely matches the factory color of Honda vehicles sold in China. The metallic pigments create a sparkly shine that gives the color depth and visual interest.
- **Authentic Honda color match** - The paint was developed by GAC Group in collaboration with Honda to accurately reproduce the sky blue hue used on Honda cars, especially models like the CR-V and City sold in China. It provides an authentic factory look.
- **Advanced resins for durability** - The paint uses premium urethane and acrylic resins specially formulated to withstand China's extreme weather conditions of heat, humidity and pollution. The resins provide good scratch resistance, UV resistance and gloss retention.
- **Pigments resist fading** - The pigments in the paint have been enhanced with UV absorbers to help protect against fading due to prolonged sunlight exposure. This allows the blue color to stay vivid for several years.
- **Easy to apply** - The paint can be applied using conventional methods like spray guns or paint rollers. Professional painting services and DIY users can apply it to refinish vehicle body parts.
- **Restores factory appearance** - GAC Honda Sky Blue B626M paint is suitable for Honda vehicle owners looking to restore or update their car's exterior to the original sky blue color offered by Honda in China.

In summary, the key benefits of this paint revolve around its authentic Honda sky blue hue, premium resin and pigment technologies that provide durability and fade resistance, and ability to restore or maintain an attractive factory-fresh appearance when applied properly.

Meklon GAC Honda Sky Blue B626M Color has many advantages, including:

GAC Honda Sky Blue B626M color finished paint offers several key advantages for Honda vehicle owners in China who want to restore or maintain an authentic factory finish. The most prominent advantage is the accurate color match to Honda vehicles sold in China, made possible through GAC Group's collaboration with Honda. The paint precisely reproduces the vibrant metallic sky blue hue used by Honda for its vehicles, providing an authentic factory appearance. In addition, the advanced resin system and optimized pigments provide advantages like enhanced durability, fade resistance and gloss retention. The premium urethane and acrylic resins can better withstand the harsh conditions in China, giving the paint superior scratch resistance, abrasion resistance and UV resistance to help the color remain vibrant for years. The pigments contain UV absorbers that help prevent fading due to prolonged exposure to sunlight. Together, these properties allow GAC Honda Sky Blue B626M color finished paint to maintain an attractive finish similar to the OEM paint, keeping Honda vehicles looking like new. Overall, GAC Honda Sky Blue B626M delivers the key benefits of an authentic factory color match, premium durability suited for the Chinese market and long-lasting color - all vital for upholding a vehicle's value and satisfying warranty obligations.
