

Odorless Durable Metallic Vehicle Paint Mildew Resistant Silver Car Body Paint

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: PORSHICHE
- Certification: ISO9000
- Model Number: P-401 Extra Silver
- Minimum Order Quantity: 200L
- Price: 4.09USD/L-4.93USD/L
- Packaging Details: Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Adhesion: Strong
- Application: Car
- Application Temperature: Moderate
- Color: Extra Silver
- Coverage: High
- Fade Resistance: High
- Finish: Glossy
- VOC Level: Low
- Highlight: pearl silver car paint, metallic pearl car paint, single stage silver auto paint

Product Description

Odorless Durable Metallic Vehicle Paint Mildew Resistant Silver Car Body Paint

Company Profile:

Meklon has a professional methods team dedicated to developing and improving automotive paint formulations and manufacturing processes. They work closely with materials scientists, chemical engineers and industry experts to ensure the automotive paint they produce is of exceptional quality and performance.

Our company has a modern factory equipped with advanced equipment and production lines for the production of various types of automotive paint. The factory adopts strict quality control measures to ensure that each batch of products meets high standards and meets customer needs.

product description:

Product Name:	Extra Silver	Specifications	1LX12/4LX4/5LX4
Net Weight:	0.95KG/3.6KG/4.6KG	Use:	Spary/Roll/Rush
Scope of application::	Cars, trucks, ships, airplanes	Price:	Good
Quality:	Good	Transportation:	By sea

Extra Silver car paint is a type of automotive paint that is known for its striking, bright silver color. It is a popular choice among car enthusiasts and owners. The color of Extra Silver car paint is typically a bright, shiny silver that is highly reflective and attention-grabbing.

The advantages of Extra Silver car paint

It can be paired with a variety of other colors and finishes to create a range of custom looks. For example, it can be combined with black accents or matte finishes for a sleek, modern look, or paired with brighter colors and metallic finishes for a more dynamic appearance.

Extra Silver car paint is also advantage its durability and resistance to fading, chipping, and other forms of wear and tear.

Differences from other manufacturers' extra silver car paint

UNIQUE COLOR:

Our EXTRA silver car paint is vibrant and bright in color, highly reflective and sparkling, unlike other manufacturers' silver car paint.

HIGH-QUALITY MATERIALS:

We use high-quality metal flakes and pigments to make the paint, which can create a highly reflective and mirror-like finish, which is more durable and long-lasting than other manufacturers' car paint.

Multiple matching options:

Our extra silver car paint is very suitable for matching with other colors and finishes, which can create a variety of unique appearance effects, which is more diverse and flexible than other manufacturers' car paint.

Customer Service:

We are committed to providing excellent customer service, which can be customized and designed according to the needs of customers to ensure customer satisfaction and experience.

401

Extra Silver

Product Features

- Silver, ultra-fine particles, weaker hair, slightly darker front, whiter side

Warehouse introduction:

Automotive paint has high requirements for storage conditions, so our warehouse is equipped with a constant temperature and humidity control system. This helps maintain the stability and quality of the paint and prevents it from getting wet, clumping or

deteriorating.

Due to the chemical content of automotive paint, warehouses must take necessary safety measures. Including fire alarm systems, fire extinguishing equipment, ventilation systems and explosion-proof equipment to ensure the safety of the warehouse.

To effectively manage automotive paint inventory, warehouses often use inventory management systems. These systems can track inventory levels, colors and types and provide real-time inventory information for timely replenishment and dispensing of paint.

Automotive paint warehouses are equipped with quality control procedures and equipment to conduct quality checks on incoming goods. This helps ensure that the quality of the paint is up to standard and reduces the risk of poor repairs or painting results due to quality issues.

In the automotive paint warehouse, our employees must follow specific safety operating procedures. This includes wearing personal protective equipment (e.g., gloves, goggles, masks) and proper handling and storage of paint to prevent accidents and chemical exposure.

Our automotive paint warehouse adheres to environmental laws and regulations to ensure the safe handling and disposal of waste paint, containers and other chemical waste. Including waste classification, garbage disposal procedures and environmental monitoring.

Company Profile

Guangzhou Meklon Chemical Technology Co., Ltd.

- was established in 2014 with 25 subsidiaries and established a complete and scientific production chain.
- We specialize in the production of automotive paints, industrial paints, putty, Clear Coat and Hardener special curing agents for automotive paints, and automotive care products. Special unsaturated resin, various cans, cartons, etc.
