

Nonwoven Soft Automotive Polishing Cloth Wear Resistant Durable

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Various models
- Minimum Order Quantity: 100Boxes
- Price: 13.05USD-19.23USD Per Box
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes per day

Product Specification

- Application: Cars
- Function: Cleaning
- Packaging: Box
- Shelf Life: 2 Years
- Type: Car Care
- Usage: External Use
- Highlight: Nonwoven Automotive Polishing Cloth, Soft Automotive Polishing Cloth, Wear Resistant Soft Car Polishing Cloths

Product Description

product description

Non-woven fabric is a kind of non-woven material, usually made of fiber material by chemical or mechanical methods. It is a lightweight, flexible and durable material suitable for many different applications, including automotive paint aids.

Nonwovens are often used as polishing and cleaning materials. It is highly absorbent and abrasion resistant, absorbing moisture and stains quickly. In addition, the softness and fine fiber texture of nonwovens can help reduce the appearance of scratches and blemishes, thereby protecting the surface of the car from damage.

Meklon's nonwoven products have many advantages over other manufacturers' products.

The non-woven fabrics used by Meklon are made of high-quality fiber materials, which are processed and treated with precision for high quality and performance. Compared with products from other manufacturers, Meklon non-woven fabrics are softer, more durable, and more absorbent, which can better protect the surface of your car and reduce the appearance of scratches and blemishes.

Meklon non-woven products have higher versatility and applicability. Our products work on a wide variety of different automotive paints and surfaces and can be used in a variety of applications including polishing, cleaning, painting and wiping. Our nonwoven products are also available in different materials and fiber densities to meet different needs and requirements.

Meklon nonwoven products undergo rigorous quality control and testing to ensure they meet the highest standards. Our products not only provide excellent protection and maintenance functions, but also provide a longer service life and a better user experience.
