

Oil Based 2K Car Clear Coat Varnish Anti Scratch Weatherproof

Our Product Introduction

Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Ferrari series
- Certification: ISO,SGS,MSDS
- Model Number: 8600
- Minimum Order Quantity: 100 L
- Price: 3.26USD-5USD
- Packaging Details: 0.5L/1L/4L/10L/20L/200L
- Delivery Time: 7-30days
- Payment Terms: T/T
- Supply Ability: 50000L/month

Product Specification

- Main Raw Materials: Acrylic Resin,Polyurethane Resin
- Feature: High Leveling,high Glossy,high Fullness,good Covering,high Adhesion
- Color: Transparent,transparent With Light Yellow
- Substrate: 1k Base Coat
- Shelf Time: 2 Years,at 20
- Component Style: Bi-component
- High Light: Anti Scratch Auto Base Paint, Oil Based Auto Base Paint, Acrylic Car Primer High Adhesion
- Highlight: **Oil Based Car Clear Coat Varnish, car paint professional, stage 2 paint**

Product Description

BASF 2K Auto Clear Coat Varnish for Cars: Anti-Scratch, Oil-Based, Accurate Color Matching

BASF 2K Automotive Clearcoat is a high-performance clearcoat with the following features:

Strong durability: The coating has excellent UV resistance, scratch resistance and chemical corrosion resistance, and can maintain the original color and gloss of the car paint in extreme weather and harsh environments.

High gloss: BASF 2K automotive clear coating has high gloss, which can reflect more light and color, making the vehicle surface more dazzling.

Ease of Application: The coating has excellent application properties and dries quickly, reducing production time and costs. At the same time, it also has good leveling and self-leveling properties, which can reduce coating defects during the coating process.

Lightweight design: The coating adopts a lightweight design, which can reduce the amount of coating and improve the fuel economy and performance of the vehicle.

Strong environmental protection: BASF 2K automotive clear coating adopts environmentally friendly formula and process, does not contain harmful substances and volatile organic compounds, and meets environmental protection standards and requirements.

Product Description:

Clear coat

The varnish in the car paint, also known as the clear paint, is a kind of transparent coating, which is mainly used to protect the surface of the car paint and increase its gloss and durability. Its advantages mainly include the following aspects:

Protect the paint surface: Automotive varnish can form a protective film on the surface of the car paint to prevent external factors from damaging the paint surface, such as ultraviolet rays, acid rain, dust, corrosion, etc. At the same time, it can also prevent the oxidation reaction on the surface of the car paint, thereby prolonging the service life of the car paint.

Increase gloss: The varnish has a high degree of gloss, which can reflect more light and color, make the vehicle surface more dazzling, and improve the appearance texture and grade of the vehicle.

Improve durability: Automobile varnish has the characteristics of anti-scratch, anti-abrasion, anti-chemical corrosion, etc. It can maintain the integrity and gloss of the paint surface in daily use and harsh environments, and improve the durability and value of the vehicle.

Ease of maintenance: Automotive varnishes have good self-cleaning and anti-fouling properties, which can reduce the adhesion of stains, deposits and dust, making vehicle surfaces easier to clean and maintain.

Product Type

Double component, multipurpose finish paint series, good application, quick drying car paint.

Surface Cleaning

Remove grease, silicon and other contamination with dis-greaser.

Mixing Ratio	Basecoat Colors	Thinner
<15°C	1K Basecoat	601 Fast Dry Thinner
15-30°C	1K Basecoat	602 Standard Thinner
>30°C	1K Basecoat	603 Slow Dry Thinner

Product description of paint

1K Clearcoat Colors 1K acrylic lacquer auto paint-Real Factory In Guangdong.

High technology enterprise specializing in researching, producing, marketing auto paint, industrial paints with more than 10 years and become one of the largest automotive coatings manufacture in Guangdong China. Only 1 and half hour driving from Guangzhou City or 40 minutes driving from Guangzhou Baiyun International Airport

-Matt varnish in the form of aerosol has several undeniable advantages:

- 1.It is more durable than ordinary paint.
- 2.It fills the small cracks of the original coating, thereby slowing down its corrosion.
- 3.After applying a matte coating, the car doesn't need to be polished.
- 4.Easy care. It is enough to wipe it with a damp cloth.

We offer a full complement of mixing and tinting equipment.contains 1K Basecoat Toners (solid, silver, and pearl Colors), 2K Topcoat Toners, Primers (1K Primer Surfacer, 2K Primer Surfacer, Epoxy Primer, and Plastic Prime), clear coatings, Hardeners, Thinners, Binders, Accessory, etc.

Additionally, our system offers all of the recipes for the automotive industry, including those for Nissan, Honda, Toyota, Ford, Chrysler, Fiat, Peugeot, Citroen, Renault, and others.

Our Brands and Products

1. Meklon Car Paint has a full set of tinting and mixing systems and is a low strength intermix system.
2. Meklon products include clear coats, hardeners, thinners, binders, 1K basecoat toners (solid, silver, and pearl colors), 2K topcoat toners, primers (1K and 2K primer surfacer, epoxy primer, and plastic prime), primers, and primer surfaces.
