Features

The paint surface is rich in metallic pigments, presenting a distinct metallic texture and reflecting a brilliant luster in the sunlight. The base color is a flowing sand gold with a subtle silver brown tone, highlighting the sense of layering and brightness. The high concentration of metal components endows the paint surface with a high gloss effect, enhancing the reflective texture of the entire vehicle. After rigorous testing, it has excellent color stability, strong resistance to fading, and long-lasting metallic luster. The combination of metallic texture and luxurious golden tone endows the vehicle with a fashionable and high-end appearance charm.
