Application	Automotive refinsh paint and car paint
Feature	Weathering resistant, good coverage and high solid
Shelf Life	2 years in original sealer can in cool and dry place at 20

#### Product Description:

Our car paint is a high-quality, eco-friendly paint remover that is safe to use and easy to operate. It is non-corrosive and does not contain any harmful materials such as acid or benzene. Our paint is specially designed to remove various types of paint quickly and efficiently, including phenolic resin, acrylic, epoxy, polyurethane finishing paint, and premier paint.

One of the key features of our car paint is its reusability. The paint film and paint slag in the solution can be easily cleaned, allowing for multiple uses. This not only makes our product environmentally friendly but also cost-effective.

#### Features:

Our car paint has several features that make it an exceptional product. It has a high solids content, which means that it has a thicker consistency and provides better coverage than other paints. Additionally, it has a high build, which makes it easy to apply and creates a smooth, even finish. Our car paint also has excellent hiding power, which means that it can cover imperfections or previous layers of paint with ease. This results in a flawless finish that looks professional and polished.

Our car paint is ISO TS 16949 certified, which means that it meets international quality standards for automotive production. This certification ensures that our product is of the highest quality and can be trusted for use in the automotive industry.

Finally, our car paint is available in a range of customizable colors, allowing our customers to choose the perfect color for their vehicle.

Overall, our car paint is a top-quality product that offers exceptional performance and is safe for both the user and the environment.
