

Good Coverage 1K Stand Blue Chinese Automotive Coating /Car Paint/Auto Refinish Paint

Our Product Introduction

Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Ferrari series
- Certification: ISO,SGS,MSDS
- Model Number: 108
- Minimum Order Quantity: 100 L
- Price: 3.26USD-5USD
- Packaging Details: 0.5L/1L/4L/10L/20L/200L
- Delivery Time: 7-30days
- Payment Terms: T/T
- Supply Ability: 50000L/month

Product Specification

- Main Raw Materials: Acrylic Resin
- Color: White,black,yellow,red And Other Optional Color
- Color Level: Good Coverage,High Gloss
- Substrate: 1k Base Coat
- Shelf Time: 2 Years,at 20
- Component Style: Bi-component
- High Light: Anti Scratch Auto Base Paint, Oil Based Auto Base Paint, Acrylic Car Primer High Adhesion
- Highlight: **Good Coverage Car Paint,
1K Stand Blue Car Paint,
Good Coverage Automotive Coating**

Product Description

Good Coverage 1K Stand Blue Chinese Automotive Coating /Car Paint/Auto Refinish Paint

Product Description

Our car paint is an eco-friendly solution that effectively removes a variety of paints, including phenolic resin, acrylic, epoxy, polyurethane finishing paint, and premier paint. It is non-corrosive, safe to use, and easy to operate, providing an excellent alternative to traditional paint removers that contain harmful materials such as acid and benzene.

In addition to its paint removing capabilities, our car paint offers several features that make it an exceptional product. Its high solids content and high build allow for better coverage and a smoother finish, while its good hiding power ensures a flawless appearance. Moreover, our car paint is ISO TS 16949 certified, ensuring its quality and reliability for use in the automotive industry.

Finally, our car paint is customized to suit your preferences, with a range of colors available to choose from. It is also reusable, allowing for multiple uses by cleaning the paint film and paint slag in solution, making it both cost-effective and environmentally friendly.

Characteristics: Made from weathering resistant resins, the high quality basecoat is with good hiding power, excellent metallic effect and easy to apply.

Substrates Dried and sanded existing finishes, primers

Substrates Treatment Remove paint dust and contaminations with degreaser before sanded

	Temperature	Name	1K Basecoat Color	Thinner
Mixing Ratio	According to the Hardener and Thinner to choose temperature	Weight Ratio	100parts	≤100parts
		Volume Ratio	1part	≤1part

Remarks At high temperature, it is recommended to use slow thinner or add proper solvent to avoid mottling.

Pot Life The time of preventing the thinner, paint, and resin hierarchical stratify

Spray viscosity 17-20 Minutes at 25°C

No. of Coats 2-3coats

Flash-off time 3-5 Minutes

Each thickness 10-20Micron

Spray Gravity Feed: 1.3-1.5/3-4kg

Pressure Siphon Feed: 1.5-1.8/3.5-4.5kg

Drying Time	Temperature	Dust Free	Application time of next process
	250C	5 minutes	10-15minutes

Sandability and Polishability Use over P1500 sand paper if need polish

Shelf Life 3 years in original sealed (can continue to use after passing inspection)

Package 1L, 4L, 5L, 18L, 20L

1K 110P

1K BLUE

Product Features

- BLUE TONE, POSITIVE LIGHT IS BLUE, TRANSMITTED LIGHT IS RED, AND THE SIDE IS SLIGHTLY REDDISH, MAINLY FOR BLUE TONES

Company Profile

Guangzhou Meklon Chemical Technology Co., Ltd. Coating was established in 2009, we focus on the production and sale of automotive paint, industrial paint, alloy paint, advertising paint and so on. Our sales network covers more than 20 countries and has more than 1000 customers in China. We have established good business relationships with owned Carmakers, shipbuilding and machine manufacturers. Our products have been favored by customers at home and abroad for many years.

THE SMART SOLUTION

Meklon Series is sufficient to shake the required tinter just shortly before dosing. As a consequence storage in common shelves at constant temperature is sufficient. The tin sizes have been selected according to the usage and therefore high storage costs and expired shelf lives will be avoided. Due to paint-in-paint mixing without any binders, activators or other additives custom made mixouts for smaller surfaces are possible. Easy application For mixing and finding formulations as well as for using the color documentation or spectrophotometer no changes in the way of working are necessary

EASY APPLICATION

The application of Meklon is possible with standard spray booths and common spray guns. Left overs are usable for a long time, cost for waste, disposal is declining.
