Shelf life:	2 years

Meklon Topcoat is a high-quality automotive paint that is easy to mix, apply, and provides excellent coverage with good metallic orientation. It is designed to imitate OEM solid, metallic, and pearl color effects, providing an optimal color match. For optimal durability, Meklon Topcoat should be used in combination with a Meklon clearcoat. Before application, surfaces must be properly prepared and cleaned to ensure maximum adherence and longevity. Old or original paintwork should be well-sanded and cleaned, while repair areas should be sanded with P500-P600 (by machine) or P800-P1000 (by hand) and thoroughly cleaned.

Meklon Topcoat offers several features that make it an excellent choice for automotive use. It has a hard paint film, good leveling performance, and strong adhesion. Additionally, it boasts excellent outdoor weather resistance and a long anti-oxidation time. It can be mixed with a variety of plain color, metal effect, and pearl effect one-component base paint, providing excellent adhesion between layers.

Overall, Meklon Topcoat is an easy-to-use, high-quality automotive paint that provides excellent color matching and durability when used in combination with a Meklon clearcoat. Its features make it an excellent choice for automotive use, providing a hard paint film, strong adhesion, and excellent outdoor weather resistance.
