## Product Description

### 2K High Quality Easy Application Automotive Refinish Tinting Mixing System Car Paint

#### Product Description

Our stable tinting system ensures reliable quality in our paint products. We use high-quality raw materials and employ experienced technicians to ensure consistency and reliability in our paint formulas.

With over 150,000 color formulas available, we offer a wide range of colors to meet our customers' needs. Whether you need a standard color or a custom color, we can provide a solution.

We continuously develop new paint formulas and offer customized formulas to meet specific customer requirements. Our experienced technicians can work with you to create a formula that meets your unique needs.

We offer a range of color tools, including OEM and variant color chips and spectrophotometers, to help our customers select the perfect color for their needs.

We are committed to providing excellent after-sale services, including on-site technical training to ensure that our customers can use our products effectively. We also provide various promotional materials, such as posters, T-shirts, caps, mixing machines, and more, to support our customers' businesses.

Overall, we are committed to providing high-quality paint products and exceptional customer service to ensure our customers' satisfaction.

thinner & harder	1L*12 tins / 0.5L*12tins 0.25L*12tins / 5L*4 tins / 4L*6 tins
primer	3.75L*4tins / 1L*12tins
auxiliaries	0.5L*12tins / 1L*12tins

As a primary auto refinish brand of Meklon, Faralli offers a completetinting system and full-line refinish products and auxiliaries to provide various ideal solutions for its customers. Our refinish paints include 1K basecoats, 2K topcoats, clears, hardeners, thinners, 2K primers, putties, and auxiliaries.

We take pride in using premium raw materials from first-class suppliers such as BASF, MERCK, ECKART, EASTMAN, DSM, BYK, and BAYER to ensure the quality and stable colors of our products. As the strategic partner of BASF, we are the biggest Chinese buyer of their raw materials.

By using high-quality raw materials, we can ensure that our paint products meetstrict quality standards and provide reliable and long-lasting solutions for our customers. We are committed to providing our customers with the best possible products and services to meet their needs.

Our 2K paints have a mixing ratio of 2 parts paint to 1 part activator/hardener to 0.3-0.5 parts thinner. For clear coat and hardener, we also offer 4:1 or 5:1 mixing ratios.

Before applying the paint, it is important to stir it evenly to ensure consistent color and texture. Then, you can spray 2-3 coats onto the surface for optimal coverage. After applying the paint, you can polish it after 15 hours at 22 or 30 minutes at 70 baking, depending on your preferred method.

At our factory, we ensure that our 2K paints meet strict quality standards and are made with high-quality raw materials. Our experienced technicians carefully blend and test each batch of paint to ensure consistency, adhesion, and coverage. We are committed to providing our customers with reliable and long-lasting 2K paint solutions that meet their specific needs.

#### our services

We provide OEM services, which means we can design and make products for our customers under their own brand names and specifications. This allows our customers to have their own unique products that stand out in the market.

We offer fast delivery, with the ability to finish production and ship goods within 7 to 10 days after order confirmation. This ensures that our customers receive their products quickly and can meet their own deadlines and customer demands.

We produce products according to our customers' requests, ensuring that quality and special requirements are met. This means that our customers can have products that are customized to their specific needs and preferences.

We offer promotional gifts to our customers, which can be customized with their own brand names and designs if they have their own brand. This is a great way for our customers to promote their brand and increase brand awareness.

We provide full support to our customers, ensuring that any questions or concerns are addressed promptly and efficiently. This means that our customers can have peace of mind and trust in our products and services.
