## Product Description

### Lemon Yellow 2K Auto Paint with Fast Drying Time & Coverage Automotive Acrylic Spray Paint

#### Product Description

The 2K tinters are a bi-component car finish paint series that offers a high-quality single coat system. It can be cured at room temperature or through low-temperature baking and offers fast drying, high hardness, high gloss, bright color, excellent covering power, and easy spraying. On the other hand, the 1K tinters are high-quality base coat series that offer a two or three coat system with silver, pearl, or solid color tinters included. They provide excellent covering power, metallic effect, and easy spraying. The 1K tinters also offer extra-fast drying and a high-quality finish, complete color coverage range with outstanding color accuracy, and good covering power and leveling. For metallic colors, the 1K tinters are high-solid and high-coverage, offering a varied color cover full range with high color saturation. Overall, both the 2K and 1K tinters offer a range of advantages that make them popular choices for automotive applications.
