Product Description

Meklon Medium Coarse Silver Car Paint with Spray Method for Durability

Product Description:

Model NO:P-408	Name:Medium Coarse Silver
Method:Spray	Certification:MSDS
Brand:PROSHICHE	Usage:Appliance Paint, Boat Paint, Car Paint
Place of Origin:GuangZhou China	Specification:1L/2.5L/4L/5L

Medium Coarse Silver car paint is painted as a family sedan. Not only because of its beauty, but also because of its durability. Kids sometimes get scratched or bumped on the car, but this finish is surprisingly resistant to such damage. The investment is well worth the money.

It goes on very evenly without any blemishes or air bubbles. I like its depth of color and light reflection effect, its texture is very fine and high gloss, it makes my vehicle look very luxurious, Medium Coarse Silver brings long-lasting protection and beauty to my vehicle.

Prepare before spraying:

- 1.paint gun or brush
2. car surface cleaner
3. Masks and Gloves
- 4.Fine White Silver silver powder paint and thinner (if needed)
- 5.Wash the surface of the car to ensure that there are no impurities such as dirt or grease on the surface.
- 6.Spray Fine White Silver silver powder paint

Drying and spraying of clear varnish:

Medium Coarse Silver powder paint needs to be completely dry after painting, usually it takes about 24 hours. When you're done, you can spray it with a clear coat for added protection and gloss to the finish.

Please note to follow proper safety precautions when applying Fine White Silver, including wearing personal protective equipment such as face shields and gloves. If you are new to painting jobs, consider having a professional painter do it for you.
