Meklon Medium White Silver Automotive Paint Features:

High glossiness: Medium white silver car paint has excellent gloss effect, which can reflect light and produce high brightness, making the car appearance more vivid and eye-catching.

Pearl feeling: This color usually has a subtle pearl feeling, that is, when illuminated by light, it will present a subtle pearl tone and shining effect. This characteristic makes cars exhibit charming changes at different angles and lighting conditions.

Neutral tone: Medium white silver is a neutral tone that does not appear too bright or abrupt, making it very suitable for daily use. It can be combined with various body lines and design elements, making the overall appearance look fashionable and elegant.

Strong covering power: Medium white silver car paint has good covering power, which can effectively cover defects and small scratches on the body surface. This makes maintenance and repair work relatively easy.

Durability: High quality medium white silver car paint usually has good durability, which can maintain bright colors and glossiness for a long time. It can resist the effects of daily climate change, ultraviolet radiation, dirt, and chemicals..
