### Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: P-308
- Minimum Order Quantity: 200Boxes
- Price: 4.64USD-6.92USD
- Packaging Details: Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes per day

### Product Specification

- Brand: PORSHICHE
- Net Weight: 0.95KG
- Name: Dry Red Pearl
- Application: Spray
- Chemical Resistant: Yes
- Product Name: Refinish Car Paint
- Solvent Resistant: Yes
- UV Resistant: Yes
- Highlight: **matt car paint,  
Car Pearl Paint Chemical Resistant,  
Mildewproof Pearl Automotive Paint**

#### Product Description:

P-308 Interference Red Pearl is an automotive paint color with a shifting effect. It is red on the front and slightly purple, and green on the side, with fine particles and good hiding power.

P-308 Interference Red Pearl Automotive Paint is not just an aesthetic color, it also has good performance characteristics. It usually has good weather resistance and can resist ultraviolet radiation and oxidation, so as to maintain the brightness and color of the paint surface for a long time without fading. In addition, it also has good wear and scratch resistance, which can protect the surface of the vehicle from damage from external elements.

Drying time for Interference Red Pearl Automotive will depend on the specific paint used and drying conditions. In general, it has a drying time

similar to traditional car paint, usually taking a few hours to a day to dry completely. Before applying paint, it is best to refer to the recommendations of the Meklon Instructions for Use for exact drying times.

When using Interference Red Pearl car paint, you first need to prepare the surface of your vehicle. This includes cleaning, sanding and filling in any scratches or blemishes. Then, a primer is applied to provide good adhesion. Next, apply Interference Red Pearl Paint, which can be applied with an airbrush, brush or roller. Finally, a clear varnish is applied to protect the finish and add shine.

Meklon Interference red pearl car paint adopts low volatile organic compounds, which reduces the impact on atmospheric pollution and air quality. This helps to reduce the emission of harmful gases, and is more friendly to the environment and human health. It belongs to an environmentally friendly car paint and can be used with confidence.
