Packaging (per carton)	1L*12can, 4L*4can
Product advantages	*Extra fast drying and high quality finishing. *Good color covering power and leveling. *Varied color cover full range with high color saturation.
Instructions	Spray
Brand Name	Meklon,PROSHICHE

Meklon Blue Pearl car paint has medium-sized pearl particles, which can reflect a unique luster and texture under the irradiation of light. It is capable of showing a shiny effect under sunlight or strong lighting, making the vehicle more visually appealing.

Blue Pearl car paint has a strong changing effect, which means that its color will change under different angles and light. This feature makes the appearance of the vehicle more dynamic and three-dimensional, giving people visual pleasure and surprise.

Blue pearl car paint can show good characteristics in terms of environmental protection. Modern car paint manufacturers pay more and more attention to environmental protection, and strive to reduce the use of harmful substances, in line with relevant environmental regulations and standards. Therefore, choosing blue pearl car paint that meets environmental protection requirements can reduce environmental impact and improve the sustainability of use.

Blue Pearl car paint usually has a high-quality formulation and manufacturing process to ensure the quality and durability of the paint finish. In addition, it also has high hiding power, which can effectively cover up the color or blemish of the primer or the previous coating, so that the overall coating effect is more uniform and beautiful.
