

1K Lake Blue Automotive Refinish Paint with High Solid, Transparent, Luminosity

Our Product Introduction

Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Ferrari series
- Certification: ISO,SGS,MSDS
- Model Number: F-113
- Minimum Order Quantity: 100 L
- Price: 3.26USD-5USD
- Packaging Details: 0.5L/1L/4L/10L/20L/200L
- Delivery Time: 7-30days
- Payment Terms: T/T
- Supply Ability: 50000L/month

Product Specification

- Main Raw Materials: Acrylic Resin,Polyurethane Resin
- Feature: High Leveling,high Glossy,high Fullness,good Covering,high Adhesion
- Certification: Pigment
- Substrate: 1k Base Coat
- Coating Type: Acrylic
- Mildew Resistant: Yes
- Transport Package: In Standard Export Cartons
- Dry Film Thickness: 1.5-2.0 Mills
- Coating Material: Acrylic
- Color: 1K Transparent Blue
- Highlight: Transparent Automotive Refinish Paint,
1K Automotive Refinish Paint,
High Solid Automotive Refinish Paint

| Shelf Life | 2 years in original sealer can in cool and dry place at 20°C |

Lake Blue is a captivating color with distinct characteristics that make it a visually striking choice for automotive finishes. Here is an in-depth description of its features:

Lake Blue is a unique and captivating hue, blending green and blue tones to create a mesmerizing greenish blue shade. This combination gives the color depth and complexity, making it stand out with its vibrant and alluring appearance.

When viewed from the front side, Lake Blue predominantly appears as a beautiful shade of blue. The blue hue is the dominant aspect, providing a sense of calmness and tranquility. This front-facing aspect of Lake Blue creates an inviting and serene atmosphere, enhancing the overall aesthetics of the vehicle.

Lake Blue exhibits a shallow appearance on the front side, meaning that the color intensity is lighter and more delicate. This shallow characteristic adds a touch of subtlety and elegance to the color, creating a soft and soothing effect. The lightness on the front side enhances the overall appeal, giving the color a gentle and refreshing quality.

As the view transitions to the side, Lake Blue deepens in color, revealing a richer and more intense shade. This deepening effect adds dimension and visual interest to the paint finish. The deep side of Lake Blue showcases its true vibrancy and complexity, making the color captivating and visually dynamic from different angles.

In summary, Lake Blue is a captivating automotive color characterized by its greenish blue hue. It appears predominantly blue from the front side, offering a calm and serene ambiance. The shallow appearance on the front adds a touch of subtlety, while the deepening effect on the side brings out the color's richness and intensity. With its unique characteristics, Lake Blue is a remarkable choice for those seeking an eye-catching and captivating color for their vehicles.

Choose Meklon 1K Lake Blue Product Features for the following reasons:

Greenish Blue Hue: The 1K Lake Blue basecoat showcases a captivating greenish blue hue. This unique blend of green and blue tones contributes to its aesthetic appeal and sets it apart from traditional blue colors. The greenish undertones add depth and complexity, giving the color a captivating and dynamic presence.

Blue on the Front Side: When viewed from the front side, the 1K Lake Blue basecoat predominantly appears as a beautiful shade of blue. The blue aspect of the color is the most prominent, creating a sense of calmness and tranquility. This front-facing characteristic contributes to an inviting and serene visual impression, enhancing the overall attractiveness of the vehicle.

Lightness on the Front Side: The 1K Lake Blue basecoat exhibits a light or delicate appearance on the front side. This means that the color intensity is lighter and softer, lending an air of subtlety and elegance to the finish. The lightness on the front side adds a touch of sophistication, creating a gentle and refreshing effect that complements the overall aesthetic of the vehicle.

Deepness on the Side: As the view transitions to the side, the 1K Lake Blue basecoat deepens in color, revealing a richer and more intense shade. This deepening effect adds depth and dimension to the paint finish, creating visual interest and capturing attention. The deep side of the basecoat showcases the color's vibrancy and complexity, making it visually dynamic and captivating from various angles.

In summary, the 1K Lake Blue basecoat in automotive paint products features a greenish blue hue, primarily appearing as a serene blue shade from the front side. The lightness on the front side adds an element of subtlety, while the deepness on the side enhances the richness and intensity of the color. With its captivating characteristics, the 1K Lake Blue basecoat offers a visually appealing option for automotive finishes, adding sophistication and allure to any vehicle.
