Product Description

Gray Refinish Car Paint Multipurpose Waterproof For Auto Dealer Supplier

Supplier introduction:

Meklon is a manufacturer specializing in the field of automotive paint. It has offices in Guangzhou and Shaoguan, a 3,000 square meter production workshop and storage area, which provides ample space and advanced facilities for the production of automotive paint.

Production advantages:

Meklon's factory has advanced production equipment and a complete production chain. Every link from raw materials to automotive paint products is strictly controlled, and product quality is guaranteed. 100 experienced operators work diligently and skillfully in their respective positions, providing a solid manpower guarantee for efficient production. There are 20 laboratory R&D personnel. The R&D engineers have rich experience and expertise, and are committed to developing automotive paint products with excellent quality and performance, and constantly exploring and innovating. Our R&D results are remarkable, and the color matching rate of finished paint is as high as 98%, which can accurately meet the color needs of various types of cars.

Featured highlights:

Meklon has engineers who have been deeply involved in the world's top automotive paint professional field for 30 years. They bring superb technology and provide valuable experience and unique perspectives. At the same time, we are equipped with mixing formula software, and professionals will explain in detail so that customers can better understand and use our products. In addition, the perfect after-sales service system allows customers to have no worries. Whether it is questions during the use of the product or subsequent maintenance needs, we can respond in time and provide effective solutions.

Warehouse:

We have a 500 square meter warehouse with excellent safety hazards. Employees will regularly inspect the warehouse to ensure that the inventory products are safely stored and meet customer needs at any time.

In addition, Meklon provides OEM services. You can send us the brand design drawings that need to be customized and give us a letter of authorization. We will customize the brand you want for you, or we have professional designers. You can tell us your ideas and needs, and we will let the designer customize it for you.

Choosing Meklon automotive paint is choosing quality, innovation, and professionalism. We will continue to be committed to providing high-quality paint products for the automotive industry and work with customers to create a better future.

Transparent Iron Yellow	124	0.87	98.87
Mussels Blue	143	1.13	100
Total:100g			
Recipe weight:100g			

Color Characteristics: Donington Gray is a neutral shade of gray that usually appears in light or medium gray tones. It has a cool, clean look that feels modern and sophisticated. This shade of gray suits many vehicle styles and is able to coordinate with different interior and exterior elements.

High quality: As a professional finished car manufacturer, Meklon pays attention to the quality and details of car appearance. Donington Gray car refinish paints are usually of a high quality standard, with special formulations and techniques to ensure that the refinished coating has a high degree of color matching with the original car paint, and has good durability and gloss.

Warranty Shelf Life: Specific shelf life dates may vary by brand and manufacturer of refinish paint. Generally speaking, the refinish paint products officially authorized or recommended by BMW will have a long quality shelf life, usually within a few years. However, Meklon is a professional car paint coloring engineer who used to be a ppg. There is basically no difference in color mixing. The quality is good. If you like it, you can try the following, I believe you will not be disappointed.

Looking forward to having the opportunity to cooperate and waiting for your good news!

**Customer feedback:**

We have been working with Meklon for many years and their car paints are of consistently excellent quality. The colors of each batch of car paints are very accurate, whether they are classic colors or fashionable popular colors, they can perfectly match the needs of customers. The durability of Meklon's car paints is amazing. The surface of the car after spraying can remain bright and new for a long time, and it can withstand all kinds of bad weather and daily wear and tear. The manufacturer's supply is also very timely. Regardless of the size of our order, we can arrange production and delivery

efficiently to ensure that our business will not be affected by out-of-stock. Working with such a professional and reliable manufacturer gives us confidence in the market competition.

Meklon's car paints are the star product in our wholesale business. Their R&D team constantly introduces new colors and technologies, allowing us to provide customers with more choices. The quality of car paints is impeccable. It is not only easy to apply, but also dries quickly, which greatly improves the work efficiency of our customers. At the same time, the manufacturer's after-sales service is also very good, and they can respond quickly and provide solutions to any problems we raise. Choosing to cooperate with them is one of the wisest decisions we have made.

We have been selling Meklon's car paints in our store, and the feedback from customers is very good. These car paints are bright and rich in color, which can instantly make the car look brand new. Moreover, they are also very environmentally friendly and have no pungent odor, which makes customers feel more at ease during use. The manufacturer also often provides us with product training and marketing support to help us sell our products better. We look forward to maintaining a long-term cooperative relationship with Meklon and bringing more high-quality car paint products to customers.
