Product Description

BMW 4 Series 2021 Models Tourmaline Grey Refinish Car Paint Matching

Manufacturer introduction:

Meklon office is located in Guangzhou, China, and is a manufacturer specializing in the field of automotive paint. The factory is located in Shaoguan, and the factory covers an area of about 3,000 square meters, providing ample space and advanced facilities for the production of automotive paint.

Production advantages: Meklon's factory has advanced production equipment and a complete production chain. Every link from raw materials to automotive paint products is strictly controlled, and the product quality is stable and reliable. There are about 100 production personnel in charge, and experienced operators work diligently and skillfully in their respective positions, providing a solid manpower guarantee for efficient production. There are 20 laboratory R&D personnel, and R&D engineers have rich experience and professional knowledge. They are committed to developing automotive paint products with excellent quality and performance, and constantly exploring and innovating. Our R&D results are remarkable, and the color matching rate of finished paint is as high as 98%, which can accurately meet the color needs of various types of cars.

Featured highlights: Meklon has engineers who have been deeply involved in the world's top automotive paint professional field for 30 years. They not only bring superb technology, but also provide valuable experience and unique perspectives for our product research and development. At the same time, we are equipped with mixing formula software, and professionals will explain in detail so that customers can better understand and use our products. In addition, the perfect after-sales service system allows customers to have no worries. Whether it is questions during the use of the product or subsequent maintenance needs, we can respond in time and provide effective solutions.

Warehouse: We have a 500 square meter warehouse with excellent safety hazards. Employees will regularly inspect the warehouse to ensure that the inventory products are safely stored and meet customer needs at any time. In addition, Meklon provides OEM services. You can send us the brand design drawings that need to be customized and give us a letter of authorization. We will customize the brand you want for you, or we have professional designers. You can tell us your ideas and needs, and we will let the designer customize it for you. Choosing Meklon car paint is choosing quality, innovation, and professionalism. We will continue to be committed to providing high-quality paint products for the automotive industry and work with customers to create a better future.

Total:100g			
Recipe weight:100g			

Color characteristics: tourmaline gray It gives people a mysterious and noble feeling, showing a unique appearance. Tourmaline gray can appear in different color variations in different light, from gray to bluish-purple, adding to its visual appeal. The car paint developed by Meklon engineers is the same as BMW Pixen gray, which means that the color matching is very high. The specific recipe for this paint color has been precisely formulated to ensure a similar tone and appearance to BMW Pixen Gray.

Uniqueness: As Meklon's engineers have developed the car paint in the same specific color as BMW Biser Gray, which may be relatively rare in the market, it is able to give the vehicle a distinctive look.

High quality: As a product developed by engineers, Meklon's automotive paint should have high quality standards. This includes aspects such as color saturation, gloss and durability. Our team takes care to ensure that the automotive paint is of excellent quality, achieved through the proper formulation and technique.

Customization: The car paint developed by our team has a certain degree of customization. This means that we can adapt and customize to meet the requirements of different vehicles and preferences according to the needs of customers. This customization can include adjusting tint, gloss, or adding special effects, etc.

**Customer feedback:**

In the global automotive paint market, Meklon has won high praise from customers in various countries with its excellent quality and outstanding performance.

Dealers have said that the strong market demand for Meklon has brought them huge profits. "The quality of this automotive paint is very stable. During the sales process, we have never received any customer complaints. Moreover, its leveling and easy spraying properties have made it well received by repair shops and consumers, and our sales have been growing steadily." A Russian dealer said excitedly.

For repair shops, Meklon is a powerful assistant for them to improve their business level. "After using Meklon, our work efficiency has been greatly improved. Its easy spraying allows our technicians to complete car repair work faster, and its strong leveling properties make the spraying effect very good, and customer satisfaction is extremely high. This not only brings us more customers, but also allows us to establish a good reputation in the industry." An African repair shop manager said with emotion.

Meklon will continue to work hard to provide customers with better products and services and create a better future with everyone.
