#### Product Information

##### (HS Car Paint Series) High Concentrated Tinters Series

Our business has created the Addition brand, a highly concentrated universal tinters series, HS series, to cater to various customer needs. The 2K tinters, 1K tinters, 1K silver paint tinters, and 1K pearl paint tinters can be used to blend HS tinters with various binders. More than 70 different HS tinter types are available in our Addition HS vehicle paint series, including HS solid color tinters, HS silver tinters, and HS tinters, among others. You can create surface coatings with a pearl effect, metallic glitter, and solid color paint by mixing them with various binders. The addition HS vehicle paint series has several benefits, including low resin content, high covering power, outstanding stability, wide compatibility with most resins, and ease of dispersion with resin. complete range, low price, etc. Most importantly, the customers can completely replace DuPont Central series with our Addition HS car paint series. The customers can use DuPont's read mixed paint formula system with our HS tinters!
