product description:
Meishilianke, Feriia, Meishilianke, Meiguanda, and Meklon are just a few of the six brands that the Meklon vehicle paint business produces. Each brand has its own distinctive packaging and features. The company's research and development team is made up of its own R&D engineers, who have created vehicle paint products ranging in quality from low to high in accordance with standards.
The business manufactures a low-to-medium quality automotive curing agent called MK-800X Environmentally Hardener. It is economical and appropriate for some markets with moderately high price demands. It is a low-to-medium priced product because to its cost, but even so, we guarantee the quality and gloss of all of our products.
