## Product Description

### Meklon Auto Spray Paint Automotive Refinish Universal Car Paint Factory Hardener

#### Product Description:

High and medium solid content, good anti-yellowing ability are features. We provide three types: Economic, Standard, and High Solid Content (HS), as well as three models: Fast Dry, Standard, and Slow Dry. It is appropriate for clear coat, 2K ready-mixed paint, and 2K tinters.

High concentration (HS) and medium concentration (MS) are the two different types of hardeners. The HDI hardener technique ensures extremely good weatherability.

The HDI is one of three Japanese companies—Tosoh HXR100, Asahikasei TKA100, or Germany's BASF HI100—to guarantee that customers obtain high-quality and dependable goods.

Features: To meet the needs of a range of customers, we provide three unique high performance varnishes. These three types come into three categories: regular, high solid content, and economical. They are all exceedingly shiny, durable, and resistant to alcohol and gasoline. The protection, durability, and brightness that the 1K base coat needs may be provided by the clear coat. The product will be smooth and crystal clear after two wet sprays.
