## Product Description

### High Glossy Car Paint TopCoat Anti Corrosion UV Protection Auto Paint Supplier

#### product details:

Meklon purple car paint is a perfect fusion of color and art. It has the passion and vitality of red, and the mystery and nobility of purple. This unique purple-red tone shines brilliantly in the sun, giving the car an unparalleled visual impact.

#### 1.excellent quality

Meklon has always been known for its high-quality products. Our purple-red car paint uses advanced formulas and processes, and has excellent durability and corrosion resistance. It can withstand various harsh climatic conditions and environmental factors, such as ultraviolet rays, acid rain, sand and dust, etc., to keep the car paint surface bright for a long time. At the same time, our car paint also has good adhesion and hardness, is not easy to scratch and wear, and provides all-round protection for your car.

#### 2.environmental protection and safety

While paying attention to quality, Meklon also pays great attention to environmental protection and safety. Our purple-red car paint meets strict environmental protection standards, does not contain harmful substances, and is harmless to the human body and the environment. It uses a low VOC (volatile organic compound) formula to reduce air pollution and create a healthy and safe driving environment for you and your family.

#### 3. Personalized customization

Meklon purple car paint is not only a kind of paint, but also a way to express personality and style. We can provide you with personalized customization services according to your needs and preferences. Whether it is a classic solid color painting or a creative pattern design, we can meet your requirements and make your car unique.

Choosing Meklon purple car paint means choosing quality, beauty and personality. Let us put this gorgeous coat on your car and start a wonderful driving journey.

VOC Level:	Low	shelf life:	1-3Years
Resistance:	High	Use:	Spray/Roll/Rush

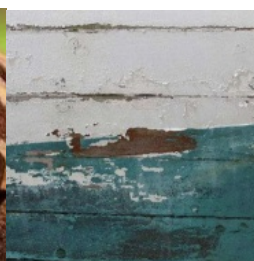

#### Scope of use:

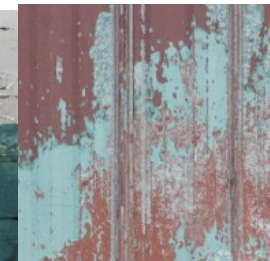

Rust

Corrosion

Peeling paint

Fade

#### Precautions:

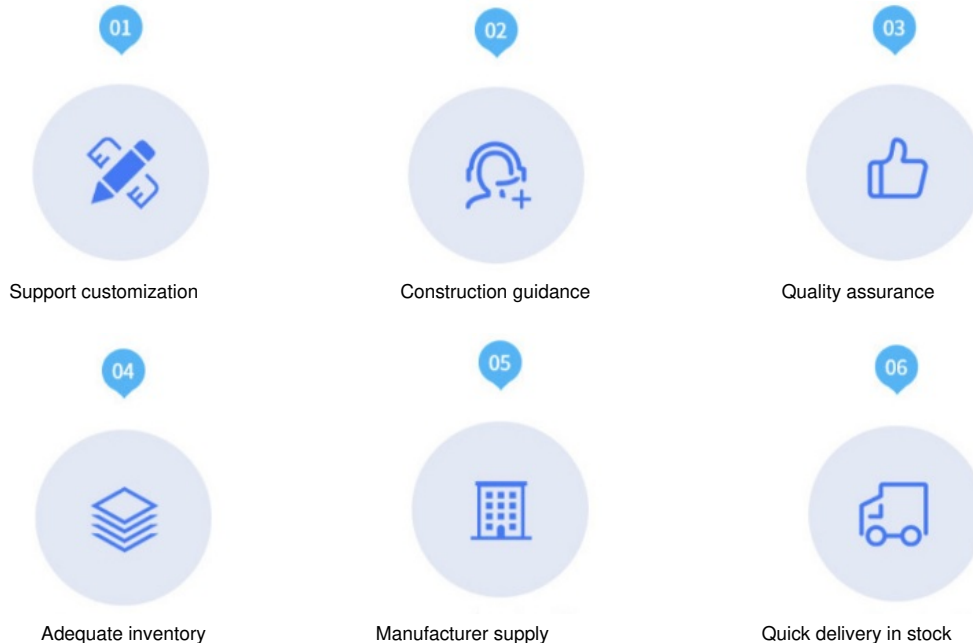

1. The color masterbatch provided by the Meklon manufacturer needs to be used with the diluent in a ratio of 1:1

2. Each color can be used individually, or can be used with other color masterbatches to create the color you need. 3.1L can spray about a square area, a door panel of a normal car.
4. Please use clean water before spraying and do not use cleaning agents containing active agents.
5. Interior plastic parts such as door panels and dashboard can be covered with leather.
6. Let the paint film dry for 15 minutes. After it is fully dry, apply the next coat 2-3 times normally.
7. Under normal circumstances, the paint cannot be removed if sprayed well. We used a brush to test it. 8. The paint film is very delicate and does not affect the original color.
9. For other questions, you can consult the sales department Sally. There are contact information at the bottom of the page. Waiting for your message.

#### Kind tips:

1. This product is flammable. Please keep it away from heat sources and open flames to prevent damage or burning. 2. Please store it in a ventilated and fire-proof place at about 25°C and keep it away from children.
3. Use in a cool, dry, dust-free, and well-ventilated place.
4. This product is a pressurized storage tank, please store it away from light.
5. If it accidentally splashes into your eyes, rinse immediately with clean water and seek medical treatment in time.

#### Choose us - feel safe

#### Customer feedback:

"This jujube car paint has a very high color saturation, rich color and rich layers, just like a bright ruby shining in the sun. Whether in bright light or in dim environment, it can show a unique charm. Its durability is even more amazing. After long-term use and the test of various bad weather, it still maintains bright colors and a smooth surface. Compared with other brands of car paint, the quality of this product is obviously superior. It is one of the best jujube car paints we have seen on the market."

"We are very satisfied with your company's jujube car paint. Its spraying effect is extremely good, even and delicate, without any flow marks or bubbles. And the fast drying speed greatly improves our work efficiency. This high-quality product not only provides our customers with excellent car appearance, but also brings more opportunities and competitive advantages to our business."

"With It was a very pleasant experience to cooperate with Meklon. Their professional team not only provided high-quality products, but also gave us timely and effective technical support and after-sales service. During the procurement process, their communication was very smooth, and they were able to respond to our needs and provide solutions quickly. We believe that such a company will definitely achieve greater success in the automotive paint industry. "

"As an automotive paint manufacturer, your company has demonstrated extremely high professional standards and innovative capabilities. They continue to develop new products and technologies to meet market needs. This jujube red automotive paint is a good example, and its appearance provides us with more choices for procurement. We look forward to continuing to maintain a long-term cooperative relationship with Meklon and jointly exploring a broader market. "
