Product Description

Big Bright Red Car Paint Top Coat Supplier

Product Description:

Maroon car paint is a deep red hue that is similar to the color of dates. It is weather-resistant and durable, resisting everyday scratches, stains and UV radiation. Maroon car paint should also have good adhesion and uniformity to ensure overall coating quality and consistency.

After proper coating and polishing treatment, Meklon automotive paint can give the maroon paint a smooth and bright effect, reflecting rich light and enhancing the texture and appeal of the appearance. Gloss can also be affected by paint maintenance, polishing and protective coatings. Regular maintenance and upkeep are important factors in maintaining the bright appearance and glossiness of maroon car paint.

Product Name	P-218 Scarlet 2K	Color	Support color correction
Features	Durable, anti-corrosion, anti-rust and high sun protection	Scope of application	Cars, ships, airplanes, tanks
Drying time	surface drying time is 2 hours, actual drying time is 24 hours	Mixing ratio	paint:curing agent:thinner=2:1:0.3

The quality of Maroon car repair paint is very good. Many dealers purchase it in bulk. End customers like it very much and give good feedback. In addition, the shelf life of this car paint is as long as 3-5 years. It can be stored in a light-proof, dry and ventilated warehouse at a temperature of around 25 degrees Celsius. According to feedback from buyers, they can even keep it in stock for 8 years.

Precautions:

1. Before spraying, the substrate must be degreased with a degreaser, sanded and dried.
2. If the temperature of the construction environment is high, >30°C, an appropriate amount of anti-white water can be added to the diluent.
3. After mixing each component, use it up as soon as possible and do not save it for further use.
4. After spraying, the tools should be cleaned with thinner in time.
