Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Meklon
- Certification: ISO,SGS,MSDS
- Model Number: 102
- Minimum Order Quantity: 200L
- Price: 4.76USD/L-5.39USD/L
- Packaging Details: 1L*12,4*4,20L,200L
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 500000L/month

Product Specification

- Material: Acrylic Resin
- Usage: Car Paint, Plastic Coating
- Storage: Store In A Cool, Dry Place
- State: Liquid Coating
- Shelf Life: 3 Years
- Application Method: Brush, Roller, Or Spray
- HS Code: 320890
- Coverage: Various Coverage
- Product: Ready Mixed Paint
- Application: Spray
- Cleanup: Soap And Water
- Highlight: **White 1K Refinish Car Paint, MSDS Refinish Car Paint**

Product Description

Good Quality Car Refinish Paint Automotive Spray Coating White Paint

Product name: 102-1K special white

Product Description: Our 1K Special White (product name 102) is a high quality automotive paint coating designed to provide excellent coverage and a standard white finish. It provides excellent coverage and is ideal for color matching purposes and achieves an even and attractive look.

Main features:

Standard White: Product Name 102 offers a standard white color widely used in automotive paint coating applications. Its consistent and reliable color tone ensures professional and visually pleasing results.

Excellent Covering Power: With its excellent covering power, this paint effectively hides underlying surfaces and imperfections. It achieves a smooth and flawless surface, enhancing the overall beauty of the coated object.

Color matching: Product name 102 is specially formulated to meet color matching requirements. It provides a consistent white base that can be easily blended with other colors to provide a precise color match for different applications.

Suitable for Spray Application: This product is suitable for spray application and is easy to use and provides effective coverage. It can be applied using different automotive paint spraying techniques, providing versatility and flexibility in application methods.

Recommendations:

Product Name 102 Recommended for use in a variety of industries and applications requiring a standard white color with excellent coverage. Commonly used in automotive refinishing, industrial coatings, furniture manufacturing and other related industries. The paint is compatible with different surfaces including metal, plastic, wood, and more.

NOTE: For best results, follow recommended application guidelines and ensure proper surface preparation before using Product Name 102.

Surface Preparation:

Begin by thoroughly cleaning the surface to remove any dust, grease, and oil. Use a mild detergent or surface cleaner and a clean cloth or sponge to ensure a pristine surface.

For old varnish surfaces, it is crucial to prepare them properly before applying the clear coat. Start by using 1200-grit sandpaper to gently sand the surface. This step helps to remove any imperfections, rough areas, or previous coatings, creating a smooth and uniform surface for the clear coat.

Take care to sand in a consistent and even manner, paying attention to any corners or edges that may require extra attention. The goal is to achieve a uniformly sanded surface, ensuring proper adhesion and a flawless finish for the clear coat.

After sanding, it is essential to remove any sanding residue or dust. Use a clean, lint-free cloth or a tack cloth specifically designed for this purpose to wipe away any debris. This step ensures a clean surface, free from any particles that could affect the final result.

By following these surface preparation steps, you will create an optimal foundation for the application of the clear coat. A clean and properly sanded surface will enhance the adhesion, durability, and overall appearance of the finished coating, providing a professional and long-lasting result.

Our Services:

OEM Service: We offer OEM service, allowing customers to have products designed and manufactured under their own brand. Whether it's customized packaging, logo design, or product specifications, we work closely with our customers to bring their brand vision to life.

Fast Delivery: We understand the importance of timely delivery. With efficient production processes in place, we strive to complete manufacturing and ship the goods within 7 to 10 days after order confirmation. Our streamlined logistics ensure that products reach our customers promptly.

Customized Production: We cater to the specific requests and requirements of our customers. From product features and materials to packaging and labeling, we tailor our production to meet their unique needs. Our attention to detail and commitment to quality ensure that each product meets the highest standards.

Promotional Gifts: We offer promotional gifts to our customers. If customers have their own brand, we provide promotional items with their brand name and design. These gifts serve as effective marketing tools, helping to increase brand visibility and leave a lasting impression on their target audience.

Customer Support: We prioritize customer satisfaction and provide comprehensive support throughout their experience with us. Our dedicated team is available to address any inquiries, concerns, or requests promptly. We strive to build long-lasting relationships with our customers by offering exceptional service and support.

By offering these services, we aim to exceed our customers' expectations and establish ourselves as a reliable and trusted partner in their business ventures.
