Product Description

Spray Application Car Refinishing Paint 1K Blue Car Coating for Repair

1K Solid Color Basecoat:

Ensures rapid drying for an extra quick and high-quality finish.

Promotes superior inter-coat adhesion, reducing the risk of mottling or unevenness in the final appearance.

Exhibits outstanding covering power, leveling properties, UV resistance, and is ideal for automotive refinishing.

Offers a comprehensive color coverage range with exceptional color accuracy, weather resistance, and compatibility with clear coats.

1K Metallic Color Basecoat:

Specifically crafted to endure harsh outdoor conditions, including UV exposure, making it perfect for automotive exteriors.

Provides unmatched scratch and stain resistance, ideal for high-traffic areas like vehicle surfaces.

Effectively controls metal particles, ensuring long-lasting color vibrancy and preventing clear coat discoloration in automotive paint jobs.

Delivers incredibly vivid colors with a lasting high-gloss finish, enhanced by corrosion resistance, suitable for automotive refinishing.

1K Pearl Color Basecoat:

Generates extremely bright and intense pearlescent effects, perfect for enhancing automotive finishes.

Demonstrates superior covering power and quick drying times, complemented by an attractive pearl layout, ideal for automotive paint applications.

Encompasses a diverse color range with high color saturation, providing options for various automotive styles.

Creates a distinctive depth and stereo perception, resulting in a durable and vibrant appearance suitable for automotive and custom paint jobs.
