## Product Description

### 36C Style Gray The Perfect Neutral Gray Automotive Paint from Mazda

Changan Mazda's 36C Style Gray is a special automotive paint color with unique features and appearance.

Based on the characteristics of Mazda car paint, Meklon set up a professional research laboratory and engineers. After a long period of research, matching, and testing, we obtained the Mazda 36C style gray car paint that is very consistent in color and quality.

#### product features:

**Color Appearance:** 36C Style Gray is a neutral and modern gray automotive paint. It presents an elegant yet understated look, suitable not only for business occasions but also for everyday use.

**Pearlescent effect:** This paint color often has tiny metallic particles that create a fine, shiny pearlescent effect. When exposed to sunlight or light, the paint will show a charming sparkling effect, adding a sense of luxury to the vehicle.

**Shade:** The shade of 36C style gray can change depending on the angle and intensity of the light. In bright sunlight it may appear light gray, while in shade or dim light it may appear slightly darker. This change gives the vehicle a different appearance in different environments.

**Durability:** Changan Mazda's 36C style gray car paint has good durability. It uses high-quality paints and varnishes that effectively protect against fading, oxidation, and everyday scratches. This kind of durability ensures that the vehicle will look great for a long time.

**High-quality coating:** Changan Mazda uses advanced spraying technology during the car manufacturing process to ensure even coating and smooth surface of the 36C style gray car paint. This high-quality coating not only adds texture to your vehicle's appearance, it also provides an extra layer of protection, making the paint more durable.

#### The mixing ratio:
