Product Description

Meklon High Quality 1K or 2K Car Paint Auto Refinish Car Coat Auto Paint

High Brightness 2K Automotive Spray Paint Car Refinish Paint

Product Description

We offer the entire line of automotive paint materials, including clear coat, hardener, thinner, primer, silver, and pearl in addition to 2K and 1K base colors.

2K Color Paint

This high-quality single coat automotive repair paint system is bi-component. Either room temperature or low-temperature baking can be used to treat it. Possessing the following benefits: easy spraying, superior covering power, high hardness, brightness, and quick drying.

1K Color Paint

It is a very high-quality three coat, two coat, and base coat system. Solid, pearl, or silver color tints are included. Excellent coverage, a shiny metallic finish, and ease of application.

Clear Coat

We offer three distinct types of high performance varnish to meet the needs of different customers: the economical type, standard type, and high solid content type. They are all highly glossy, have high hardness, and are resistant to alcohol and gasoline. The protection, durability, and brightness of the clear coat can be sprayed on top of the 1K base coat. After two wet sprays, the smooth and crystal-shining effect is achieved.

Hardener

superior, resistant to yellowing. We have three types: Economic, Standard, and High Solid Content (HS), in addition to three models: Fast Dry, Standard, and Slow Dry. It works well with clear coat, 2K pre mixed paint, and 2K tints.

Thinner

There are three sorts of thinner: Standard, Fast Dry, and Slow Dry. It is a component of clear coat, 2K primer, 1K paint, and 2K paint, among others. It encourages bonding and dissolves well.

Advantages

1. We consistently demand the use of the highest caliber raw materials available, such as those made by Germany's BASF, Japan's NPU, the USA's Eastman, Taiwan's Everlasting Resin, New Zealand's NUPLEX, etc.
2. Strong adherence and covering power
3. High luster, plumpness, and brightness
4. Outstanding weather resilience
5. Strong anti-corrosion ability

Advantages consist of

1. potent anticorrosion;
2. Performance of weathering resistance;
3. Anti-alkaline and highly resistant to pollutants;
4. The cured layer is durable and resistant to abrasions;
5. To clean the car's lacquer face, use a detergent that is waterproof and dampproof.

Company Information

Guangzhou Meklon Chemical Technology Co., Ltd. is a dynamic company that was founded in 2015. We are a major player in the industry and have established ourselves as a trustworthy option for automotive coating needs. Our company specializes in the research, development, production, and distribution of automotive paint, alloy advertising paint, and putty.

As evidence of our dedication to providing high-quality products on a global basis, our vast sales network includes locations in China, Southeast Asia, Africa, the Middle East, Australia, Europe, and America. Notably, our success is demonstrated by the introduction of prestigious brands like "Ferrari" and "Porsche," demonstrating the high regard our products command in the market.

As we continue to evolve, our company has become a comprehensive painting enterprise, offering a diverse range of products tailored to meet the industry's demands. Join us in this journey of success and experience the innovation, reliability, and quality that define our automotive coatings.

Application method

spray gun	Gravity gun gun nozzle: 1.2mm, gun pressure: 2.0–3.0 MPa	Suction gun gun nozzle: 1.5mm, gun pressure: 2.0–3.0 MPa
substrate	dry 1K primer surface with smooth effect	
Paint preparation	1k paint- thinner-EX10/EX20/EX30	
mix ratio	1 : 1 (base paint : thinner)	
spraying layers	2-3 coats	
flash-off time	3-5 mins , 20-25	
surface dry time	15-20mins	
Time to Polish	1h, P1000 sanded paper	
Relationship between drying temperature and time of 1K base coat		
Tenmperture	Surface Drying time	Time to Polish
25	10-15 mins	1 hour
35	5-10 mins	40 mins
60	3-5 mins	15 mins

Why Choose Us?

Our Products	In addition to a variety of car care accessories, such as a paint cup, tec, tack cloth, undercoat, mixer, and mixing machine, we also specialize in automobile refinish paint.
Quality	We maintain stringent quality control over all items, from raw materials to finished goods.
Service	Please get in touch with us if you would like the products to carry your own brand; we provide OEM/ODM services!

**Frequently Asked Questions (FAQ):****Q1: What is your company's nature—a trading company or a manufacturer?**

A respectable firm based in Shaoguan, Guangdong, China, is who we are. The Guangzhou airport is conveniently close to our state-of-the-art factory—just a 45-minute drive away.

Q2: Do you offer samples, and is there a cost associated with them?

A: We may be able to give interested parties free samples, depending on the circumstances.

Q3: Can you produce paint under my brand and logo?

A: Of course. We offer the choice of packaging and delivering the paint using your logo. Nevertheless, there are minimum order quantities and license restrictions. Please get in touch with us if you would like a thorough explanation of our OEM Cooperation Terms.

Q4: Is your car paint suitable for our local weather conditions?

A: Both domestically and internationally, our automotive paint has undergone extensive testing. We can also alter the formula to guarantee peak performance under different climatic circumstances.

Q5: Can you create customized colors?

A: We certainly can. Give us a sample of the color you want, or send us a reference image, and we will adjust the color to your preferences.

Q6: What advertising materials are provided for free with my order, and how many pieces are included?

Mixing machines, balances and scales, spray guns, display racks, T-shirts, caps, CDs, posters, tinting maps, TDS (technical data sheets), color reference cards, mixing rulers, and more are among the free promotional materials we provide with your order. Your order amount will determine how many free things you receive, so you'll have everything you need to properly display our high-quality automotive coatings.
