

High Reduction GAC Toyota Opal Silver Car Paint Environmentally Friendly Durable

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: GAC Toyota
- Minimum Order Quantity: 200L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 L per day

Product Specification

- Brand: Dongfeng Nissan
- Code: GAC Toyota
- Dryingtime: 30 Minutes
- Easy To Clean: Yes
- Heat Resistance: Yes
- High Light: Ready Mixed Car Paint
- Material: Acrylic
- Produce Name: Toyota 040
- Productname: Vehicle Car Paint
- Shelf Life: 1-3year
- Suitable Surfaces: Metal, Plastic, Fiberglass
- Voc Content: Low
- Highlight: automotive body paint, silver auto paint

Product Description

High Reduction GAC Toyota Opal Silver Car Paint Environmentally Friendly and Durable

As a car paint manufacturer, the high-reduction GAC Toyota Opal Silver car paint color specially adjusted by our engineers is a specially customized color.

High-reduction GAC Toyota Opal Silver car paint is an elegant and modern silver color named after its European-style luxury appearance. Its hue changes subtly in different lights, giving the vehicle's appearance a unique sheen and depth.

Meklon's specially formulated automotive paint has high reducibility and can accurately restore the original color of GAC Toyota Opal Silver. Engineers use precise color matching and formula to ensure that the paint perfectly matches the original car color, making the painted vehicle look like it came from the factory.

Highly restored GAC Toyota Opal Silver automotive paint has good color stability. It uses high-quality pigments and coatings and undergoes rigorous testing and quality control to ensure color durability and consistency. This means the color remains vibrant and stable even with prolonged use and exposure to UV rays.

Our automotive paint offers excellent scratch resistance and durability. It uses advanced coating technology that can effectively resist minor scratches and abrasions that may be caused by daily use, protecting the long-term beauty of the vehicle's appearance. Environmental protection and compliance with standards: High-reduction GAC Toyota Opal Silver automotive paint meets environmental protection standards and does not contain harmful substances. Your paint formulations are carefully designed to reduce environmental impact and comply with relevant regulations and standards.

Our advantage

Color matching system: Our company has an independent color matching system, which means we can provide a wide range of automotive paint color options to meet the different needs of customers. Whether a customer requires standard or custom colors, Meklon's color matching systems can accurately match and provide high-quality color solutions.

Masterbatch diagrams and masterbatch cards: In order to ensure that customers can accurately select and identify the required colors, we provide masterbatch diagrams and masterbatch cards. These tools clearly demonstrate the appearance and characteristics of each color, helping customers make informed decisions during the selection process.

Product quality: Meklon is well-known in the industry for its high-quality products. Our automotive paints are carefully developed and subject to strict quality control to ensure color stability, scratch resistance and durability. This way, customers can choose your products with confidence, knowing they will provide long-lasting beauty and protection for their cars.

Customer Service: Our company focuses on customer service and is always oriented towards customer satisfaction. Our team provides professional consultation and support to help customers make the best decisions on color selection, product applications and solutions. Your customers enjoy prompt feedback, efficient delivery and personalized solutions to ensure their needs are met.
