Shelf Life	1-3 years, avoid long-term storage, it is generally recommended to use it within one year.	Gloss	matte non-reflective
Maintenance	Easy and simple	Construction	1K Matte Black Mixed Thinner 1:1 Stir and spray directly

### Manufacturer Introduction

Meklon has a professional methods team dedicated to developing and improving automotive paint formulations and manufacturing processes. They work closely with materials scientists, chemical engineers and industry experts to ensure the automotive paint they produce is of exceptional quality and performance.

Our company has a modern factory equipped with advanced equipment and production lines for the production of various types of automotive paint. The factory adopts strict quality control measures to ensure that each batch of products meets high standards and meets customer needs.

The company maintains an independent research and development laboratory to test and evaluate the performance and durability of automotive paints. The laboratory is equipped with advanced instruments and equipment and can conduct many experiments such as color matching, chemical analysis, weather resistance testing, etc. to ensure the quality and stability of the product.

The company has an experienced production team consisting of more than 200 employees. They are familiar with the production process of automotive paint and strictly follow the company's standard operating procedures for production. The production team pays attention to details and quality control to ensure that every bottle and barrel of automotive paint meets high-quality requirements.

### Customs feedback

"Meklon car paint has a very high color saturation, and it can show a unique charm whether in bright light or in dim environment. Its durability is even more amazing. After long-term use and the test of various bad weather, it still maintains bright colors and a smooth surface. Compared with other brands of car paint, Meklon car paint products are obviously superior in quality and are one of the best car paints we have seen in the market."

"We are very satisfied with your company's red car paint. Its spraying effect is extremely good, even and delicate, without any flow marks or bubbles. And the fast drying speed greatly improves the work efficiency of our customers. This high-quality product not only provides our customers with excellent car appearance, but also brings more opportunities and competitive advantages to our business."

"With It was a very pleasant experience to cooperate with Meklon. Their professional team not only provided high-quality products, but also gave us timely and effective technical support and after-sales service. During the procurement process, their communication was very smooth, and they were able to respond to our needs and provide solutions quickly. We believe that such manufacturers will definitely achieve greater success in the automotive paint industry. "

"Meklon, as an automotive paint manufacturer, has demonstrated extremely high professional standards and innovative capabilities. They continue to develop new products and technologies to meet market needs. This red automotive paint is a good example, and its appearance provides us with more choices for procurement. We look forward to continuing to maintain a long-term cooperative relationship with Meklon and jointly exploring a broader market. "
