Total:100g			
Recipe weight:100g			

#### Features:

**Accurate match:** Our engineers conducted careful research and color analysis on the Audi LY8S Argus Brown model to ensure that the refinished paint perfectly matches the original paint surface, eliminating any color difference or incongruity.

**HIGH QUALITY:** Our Audi LY8S Argus Brown car refinish paint uses high-quality raw materials and advanced formula to ensure excellent durability and resistance to fading. It maintains color and shine for long periods of time, standing up to daily use and environmental factors.

**EASY TO APPLY:** Our refinishing paints are designed for easy application, making the repair process simpler and more efficient. Whether you're a professional technician or a car owner, it's easy to use our refinishing paints for precise repairs, saving you time and effort.

**Compatibility:** Our refinishes are suitable for use on a variety of surface materials, including metals, plastics, composites and more. It integrates perfectly with different parts of the vehicle to ensure a consistent and seamless repair.

**Customer customization:** We can provide customized Audi LY8S Argus Brown automotive refinishing paint according to customer needs to meet the requirements of different vehicles and markets. Whether you are a professional repair shop or a car owner, we can provide tailor-made solutions.

**Quality Service:** We focus on customer satisfaction and provide comprehensive pre-sales and after-sales services. Our team is

dedicated to providing customers with professional support and advice to ensure they get the best repair results and experience.

Our team of engineers strictly controls quality during the R&D, testing and production processes to ensure that every bottle of Audi LY8S Argus Brown automotive refinish paint meets the highest quality standards. Our factory is equipped with advanced equipment and quality control systems to ensure product consistency and reliability.

If you are interested in our Audi LY8S Argus Brown car refinishing paint or have any questions, please feel free to contact us. Our team will be happy to provide you with further information and support. sally+8613822162990

### Repair construction:

**Cleaning:** Use car detergent and water to thoroughly clean the vehicle surface to ensure it is clean and free of dust, dirt or other impurities.

**Grinding:** Use sandpaper or a grinding machine to smooth the paint in the damaged area flush with the surrounding paint. Be careful not to wear away too much of the paint during the grinding process.

**Filling:** Use appropriate filler to fill the dents or scratches after grinding to ensure a smooth surface.

**Prime:** Spray the repaired area with an appropriate primer to provide adhesion to the paint surface.

**Painting:** Spray the repaired area with a paint finish that matches the original color of the vehicle. When painting, pay attention to spraying evenly and making a transition with the surrounding paint surface so that the repair area and the entire vehicle surface are seamlessly connected.

**Varnish/Clear Coat:** After applying the paint, spray it with a clear varnish to protect the paint and improve its gloss.
