Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO9000
- Model Number: P-107
- Minimum Order Quantity: 5cartons
- Price: 15.87USD/carton-30.86USD/carton
- Packaging Details: Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes per day

Product Specification

- Uv Resistant: Yes
- Coats Required: 2
- Applicable Models: 3 Series
- High Light: Ready Mixed Car Paint
- Coverage: High Coverage
- Recoat Time: 24 Hours
- Net Weight: 0.95KG
- Application Temperature: 50-90°F
- Brands: Dongfeng Nissan
- Surface: Metal, Wood, Masonry, And More
- Fade Resistance: Yes
- Recoat: 2 Hours
- Application humidity: Less Than 85%
- Weather Resistance: Highly Resistant To Weather Conditions
- Drying Time: Fast Drying

Product Description

Multi-Functional Refinish Car Paint for Stable Production Processes

Manufacturer Introduction:

Meklon's factory is a medium-sized automobile repair auxiliary material factory. We have modern production facilities and equipment, and are equipped with a professional technical team, dedicated to producing high-quality automobile repair auxiliary materials.

Our factory has advanced production lines and multi-functional equipment to ensure efficient, precise and stable production processes. Our production lines cover multiple links such as raw material processing, formula mixing, production injection molding, packaging, etc. to meet the production needs of different types of repair auxiliary materials.

As an automobile repair auxiliary material factory, we provide a wide range of products to meet the various needs of automobile repair and repair.

The following are our common product types:

We produce various colors and models of automobile repair paints, including spray paint cans, spray paint pens and spray paint sets. These repair paints can be used to repair car body scratches, wear, stone impact and other problems.

Automobile repair adhesives: We provide a variety of types of automobile repair adhesives, including structural adhesives, sealants, epoxy adhesives, auxiliary adhesives, etc. These adhesives can be used for applications such as car body repair, component bonding and sealing.

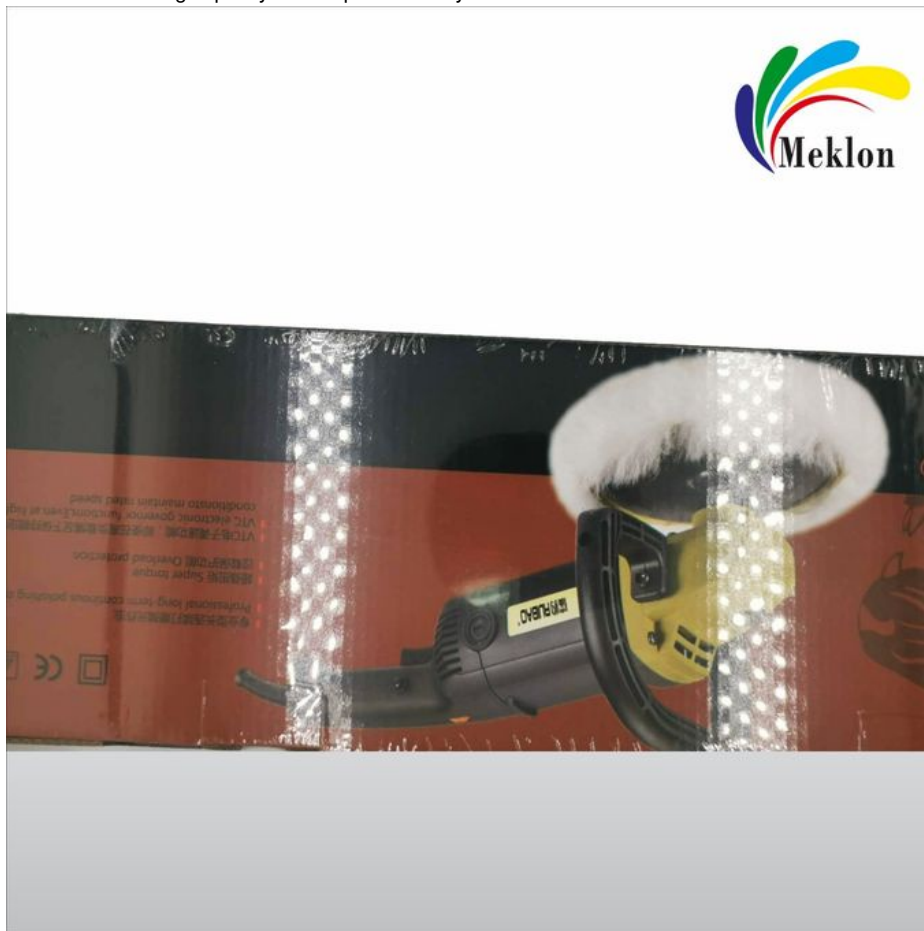

We produce a variety of fillers for repairing car body dents, cracks and defects. These fillers can fill uneven surfaces and provide strong structural support.

Auto Repair Tools: We offer a wide range of auto repair tools such as scrapers, sandpaper, spray guns, repair kits, etc. These tools help repair personnel perform effective and precise repair work.

The above are just some of the common product types produced by our factory, and we can also customize production according to customer needs. We focus on product quality and performance, and follow international standards and industry requirements to ensure the provision of reliable and efficient auto repair auxiliary materials.

Through the scale of our factory, advanced production lines and diversified product range, we are committed to providing customers with high-quality auto repair auxiliary materials to meet their needs in the field of auto repair.

3M: 3M is a world-renowned diversified technology company and one of the important manufacturers in the field of automotive repair products. They provide a variety of high-quality automotive repair and maintenance products, including sandpaper, abrasive materials, polishes, scratch repair products, tapes, sealants, etc.

Meguiar's: Meguiar's is a well-known brand of automotive care and beauty products, focusing on providing high-quality automotive polishes, cleaners, lubricants, car waxes and surface protection products. Their products are widely used in the field of automotive repair and maintenance.

Dupli-Color: Dupli-Color is a manufacturer focusing on automotive paint and spray paint products. They provide a variety of colors of spray paint, paint repair products, paint repair pens, etc., suitable for automotive appearance repair and personalized customization.

Bosch: Bosch is a leading global manufacturer of automotive parts and also provides a wide range of automotive repair products. Their products include ignition systems, engine management systems, brake systems, electrical equipment, etc., providing comprehensive solutions for vehicle repair and maintenance.

Goodyear: Goodyear is a well-known tire manufacturer. They provide a variety of tires and tire repair products for the automotive repair field. Their products cover different types of vehicles and application scenarios, providing high-performance, durable and safe tire solutions.

Prestone: Prestone is a manufacturer that focuses on cooling system and antifreeze products. They provide high-quality coolants, cooling system additives, and cooling system maintenance products to ensure the normal operation of the vehicle's engine cooling system.

Automotive batteries: Batteries used to provide power to the car, including lead-acid batteries, lithium cobalt oxide batteries, etc.

Oil filters: Used to filter impurities and contaminants in the engine oil to keep the engine clean.

Automotive paint repair products: Including paint repair agents, scratch repair agents, oxidation polishing agents, etc., used to repair and restore the gloss and appearance of the car's paint.

Automotive cleaning products: Cleaners used to clean the inside and outside of the car, such as car detergents, glass cleaners, tire cleaners, etc.

Automotive tapes and adhesives: Tapes and adhesives used to temporarily repair and connect automotive parts, such as transparent tape, double-sided tape, automotive-specific glue, etc.

Automotive lighting products: Including automotive bulbs, headlight components, LED lights, etc., used for the repair and replacement of vehicle lighting systems.

Automotive electrical products: Components and accessories involving electrical systems, such as ignition coils, switches, sensors, etc.

Tire repair products: including tire repair kits, tire glue, air valves, etc., used to repair punctures and damage on tires.

Automotive safety products: such as seat belts, vehicle warning signs, first aid kits, etc., used to provide safety protection for vehicles and passengers.

Customer Feedback:

Quality Products: Our customers are very satisfied with the quality of your automotive accessories products. They mentioned that your products have excellent performance and durability, and can effectively cope with various repair and maintenance needs. Customers praise your products for their excellent performance in repairing car body scratches, filling dents, bonding parts, etc.

Accurate Formula: Customers appreciate the accurate formula and fine mixing ratio of your automotive accessories products. They said that when using your products, they can get consistent quality and reliable performance, ensuring the accuracy and stability of repair work.

Convenient Use: Customers gave positive feedback on the convenience of Meklon's products during use. They mentioned that our products are easy to operate and easy to apply, and they can provide clear instructions and guidance. Customers believe that using our products can save time and energy and improve repair efficiency.

Excellent Customer Service: Customers gave high praise to my customer service. They said that they received professional, thoughtful and timely support when working with Meklon's team. Customers appreciate Meklon's team for answering technical questions and suggesting product selection, as well as efficient communication and cooperation in order processing and logistics.

Reliable Supply Chain: Customers gave positive feedback on Meklon's supply chain management. They said your factory is able to supply products in a timely manner and maintain a stable inventory. Customers appreciate the efficiency and accuracy of our transportation and distribution system, which enables them to get the products they need on time.
