Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: G4,3M
- Minimum Order Quantity: 50Boxes
- Price: 20.73USD-50.56USD
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes per day

Product Specification

- Features: Advanced Formula, Provides Long-lasting Protection, Easy To Use
- Application Method: Hand Application Or With A Buffer
- Colors: More Than 100 Colors
- Main Raw Materials: Resine, Solvent, Pigment, LPG
- Type: Cleaning And Detailing
- Ingredients: Plant-based Extracts
- Fragrance: Lemon
- Component Style: Bi-component
- Storage: Cool And Dry Place
- Color: Yellow,White
- Shelf Time: 2 Years,at 20
- Bottle Color: Yellow
- Application: Liquid
- Stirring Type: Spiral

Product Description

Experience the Difference with Meklon Car Detailing Supplies

Manufacturer Introduction:

Meklon Car Detailing Products Manufacturer is a company that focuses on producing high-quality car detailing products. Our factory is located in a modern production facility with advanced equipment and technology. The factory is equipped with advanced production equipment and machinery, including mixing equipment, filling machines, packaging lines, etc. The equipment can efficiently produce a variety of car detailing products to ensure the quality and consistency of the products. We pay great attention to product quality control. Our factory has an experienced quality control team who conducts strict monitoring and inspection throughout the production process to ensure that each product meets our high standards.

WHY CHOOSE
GUANGZHOU MEKLON CHEMICAL TECHNOLOGY CO., LTD. 广州美亮

- Quality Assurance
- High customer Satisfaction
- ISO9001 Certificate
- Over 20 years of Assurance
- Competitive Price
- Delivery Fast

GLOBAL SALES
BEAUTIFUL AND BRIGHT TRAVEL ACROSS THE WORLD

We have a professional R&D team dedicated to developing innovative car detailing products. They pay close attention to industry trends and customer needs, and continuously improve and launch new products to meet the ever-changing market. Our factory has high production capacity and can meet the needs of large-scale production. Our production process is optimized to ensure high efficiency and fast delivery.

We pay attention to environmental protection and sustainable development. During the production process, we take measures to reduce waste and energy consumption, and strive to use environmentally friendly materials and packaging.

Our factory strictly adheres to safety and compliance standards. We ensure that employees operate equipment in a safe working environment while following relevant regulations and legal requirements.

The factory of Meklon Car Detailing Products Manufacturer is committed to providing high-quality, innovative and reliable car detailing products. We continuously strive to improve production efficiency and product quality to meet customer needs and establish long-term cooperative relationships with partners.

MANUFACTURER
GUANGZHOU MEKLON
CHEMICAL TECHNOLOGY CO., LTD.

Product Introduction:

G3.G4 Wax Oil: G3.G4 Wax Oil is a high-quality automotive wax oil used to protect and enhance the gloss of the car's exterior. It is usually composed of special polymers and silicone waxes, which can form a durable protective layer to prevent damage to the car's paint caused by daily use and environmental factors. Using G3.G4 Wax Oil can make the vehicle surface smooth, wear-resistant, and increase water resistance, while providing protection against UV rays and chemicals.

Mirror Finish: Mirror Finish is a product used to restore and improve the gloss of the car's paint. It usually contains fine sand particles or chemicals that can remove minor scratches, oxidation, stains and other surface imperfections. Mirror Finish can provide a deep clean and gloss to the car's paint, making the car look brand new.

Chassis Armor: Chassis Armor is a protective layer applied to the chassis and bottom parts of the car. It is usually made of wear-resistant materials or polymers and is designed to protect the chassis from damage from road debris, corrosive agents and other substances. Chassis Armor can provide an extra layer of protection, extend the life of the chassis and bottom parts, and reduce repair costs.

Hand wash cream: Hand wash cream is a cleaning product designed for car detailing shop staff. Since the detailing process may come into contact with pollutants such as oil, wax, etc., ordinary soap and water are often not enough to completely clean. Hand wash cream usually contains detergents and gentle cleaning ingredients that can effectively remove oil and pollutants while protecting the skin from irritation.

These products are widely used in car detailing shops to provide protection, repair and cleaning of the car's appearance and chassis. Please note that the ingredients and uses of specific products may vary, so when purchasing and using, it is best to follow the product instructions and professional advice.

Advantages of working with us:

Diverse product lines to meet various automotive repair needs.
Customization capabilities to provide personalized solutions according to your requirements.
High-quality automotive paint and repair materials to ensure repair effects and durability.
Focus on environmental sustainability and strive to reduce environmental impact.
Strict quality control to ensure product consistency and reliability.

Customer Feedback:

Quality Products: Our customers are very satisfied with the quality of your automotive accessories products. They mentioned that your products have excellent performance and durability, and can effectively cope with various repair and maintenance needs. Customers praise your products for their excellent performance in repairing car body scratches, filling dents, bonding parts, etc.

Accurate Formula: Customers appreciate the accurate formula and fine mixing ratio of your automotive accessories products. They said that when using your products, they can get consistent quality and reliable performance, ensuring the accuracy and stability of repair work.

Convenient Use: Customers gave positive feedback on the convenience of Meklon's products during use. They mentioned that our products are easy to operate and easy to apply, and they can provide clear instructions and guidance. Customers believe that using our products can save time and energy and improve repair efficiency.

Excellent Customer Service: Customers gave high praise to my customer service. They said that they received professional, thoughtful and timely support when working with Meklon's team. Customers appreciate Meklon's team for answering technical questions and suggesting product selection, as well as efficient communication and cooperation in order processing and logistics.

Reliable Supply Chain: Customers gave positive feedback on Meklon's supply chain management. They said your factory is able to supply products in a timely manner and maintain a stable inventory. Customers appreciate the efficiency and accuracy of our transportation and distribution system, which enables them to get the products they need on time.
