

Green Car Paint Top Coat With Advanced Facilities Strong Adhesion Auto Painting

Our Product Introduction

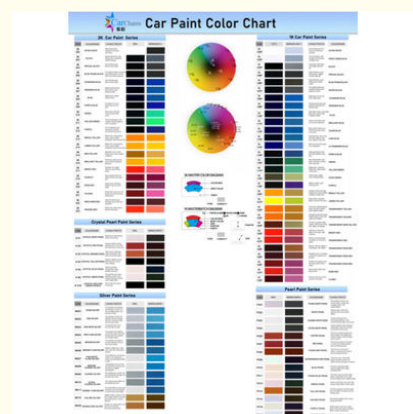

Basic Information

- Place of Origin: China
- Brand Name: Ferrali
- Certification: ISO,MSDS,SGS
- Model Number: 210
- Minimum Order Quantity: 200L
- Price: 2.73/LUSD-5.56/LUSD
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Supply Ability: 200Lper day

Product Specification

- Code: 210
- Name: Through Green
- Storage: Store In A Cool, Dry Place
- Application Method: Brush, Roller, Or Spray
- Weather Resistance: All-weather
- Scratch Resistance: High
- Voc Level: Low
- Recommended Use: Interior/Exterior
- Color: Clear
- Easy To Clean: Yes
- State: Liquid Coating
- Package: Can And Carton
- Cleanup: Soap And Water
- Heat Resistance: Yes
- Coats Required: 2-3

Product Description

Green Car Paint Top Coat With Advanced Facilities Strong Adhesion Auto Painting

Manufacturer Introduction:

Meklon is car paint manufacturer based in China. Our factory, which covers an area of 3,000 square meters, is equipped with advanced facilities.

We produce a wide variety of car paint products, including 1K and 2K color paints, clear varnish, curing agents, thinners, primers, body filler, and atomic ash.

Our factory attaches great importance to environmental protection. We have an advanced exhaust gas treatment system to ensure eco-friendly production. The raw materials we use are imported and of high quality, which guarantees the excellent performance and durability of our products.

We are committed to providing customers with top-quality car paint solutions and excellent services.

product description:

We are a professional car paint manufacturer, committed to providing customers with high-quality green car paint.

Our 2K green car paint has a variety of shades and color options, from fresh mint green to deep forest green, to meet the personalized needs of different customers. The color is bright and pure, with excellent hiding power and stability, showing charming color effects both in the sun and in the shadow. The vehicle repair paint has strong adhesion, and the gloss, flatness and color uniformity are impeccable. Not only is the color full and lasting, but it also has high hardness and strong wear resistance, and can withstand various daily wear and tear.

During the production process, we introduced advanced energy-saving equipment to significantly reduce energy consumption. At the same time, the factory is equipped with first-class waste gas and wastewater treatment facilities to ensure zero emissions and minimize pollution to the environment. And the product has obtained relevant environmental certifications, ISO 14001 Environmental Management System Certification, GREENGUARD Certification, etc.

While ensuring product quality, by optimizing production processes and management, we minimize costs and provide customers with competitive prices. We are well aware of our customers' concerns about costs, so we strive to let you get high-quality products at a reasonable price.

Due to the high quality and good reputation of our products, the order volume of green car paint continues to grow steadily. Every day, a large number of products are shipped from our factory to all parts of the country and some international markets. We have efficient logistics partners to ensure that the goods are delivered to customers in a timely and safe manner.

2K car paint preparation:

Prepare tools: clean stirring rod, electronic scale, paint mixing cup, etc.

Clean environment: Make sure there is no dust and impurities in the paint mixing area.

Proportion confirmation: Determine the ratio of the main paint, curing agent and thinner according to the product manual.

Precise weighing: Use an electronic scale to accurately weigh each component.

Stirring and mixing: Pour the main paint into the paint mixing cup, then add the curing agent and appropriate amount of thinner according to the proportion, stir evenly, the stirring time is usually 5-10 minutes, until the paint liquid is fully blended and the color is uniform.

Mode of transport:

As automotive paint is classified as hazardous goods, it is usually exported by sea.

We adhere to strict international safety and regulatory standards when shipping our automotive paint to various countries. Our products are carefully packaged and labeled, along with the required documentation.

We work closely with reliable shipping companies that have extensive experience and expertise in handling hazardous goods. They ensure that our automotive paint is safely and efficiently loaded, stowed, and transported on their vessels.

During sea transportation, the containers loaded with our automotive paint are closely monitored to ensure that they remain in good condition and there are no leaks or safety issues.

We also provide all the necessary documents and compliance certificates to facilitate smooth customs clearance at the destination port.

client feedback:

I run an auto repair shop and have been looking for a high-quality and stable auto paint. Since using your product, it has really solved my big problem! Your auto paint has accurate color and strong covering power. Whether it is a small area repair or a full car spray painting, the effect is perfect. And it has excellent weather resistance. After customers use it for a long time, the paint surface is still bright and beautiful. Thank you very much for providing such an excellent product! "

"We are a large auto beauty chain store. After cooperating with you, customer satisfaction has greatly improved. Your auto paint is of high quality. Not only is the color full and lasting, but it is also hard and wear-resistant, and can withstand various daily wear and tear. At the same time, your after-sales service is also very thoughtful, so that "we have no worries during use. We will always keep cooperating with you!"

I am a person who is very picky about details and did a lot of homework when choosing auto paint. In the end, I chose your product, which was really the right choice! Whether it is glossiness, flatness or color uniformity, it is impeccable. After using your auto paint, my car seems to have returned to the state of just leaving the factory. Thank you very much! "
