## Product Description

### Customized Formula High Gloss 34K White Pearl Refinish Car Paint For Auto Refinishing

#### Product Description:

As a leading car paint manufacturer, our professional R&D team has meticulously developed the Changan Mazda 34K White Pearl Automotive Paint, specifically tailored to meet the exacting standards of automotive refinishers and Mazda enthusiasts.

#### Customized Formula for Precision Matching:

Our R&D team has crafted a unique formula that closely replicates the iconic 34K White Pearl color of Changan Mazda vehicles. This bespoke formulation ensures that the paint achieves a perfect match in terms of hue, tone, and texture, allowing professional refinishers to restore or customize vehicles with unparalleled accuracy.

#### Pearlescent Luster for Enhanced Aesthetics:

The paint features a captivating pearlescent luster that imparts a luxurious and sophisticated appearance to the vehicle. Under sunlight or artificial light, the paint exhibits a rich array of color levels and gloss transitions, creating a mesmerizing visual effect that elevates the vehicle's overall appeal.

#### High Gloss for a Showroom Finish:

Our focus on glossiness is evident in the selection of premium pigments and additives that contribute to the paint's exceptional reflectivity and shine. This high gloss level ensures that the vehicle stands out with a vibrant and eye-catching finish, ideal for those who demand the best in automotive aesthetics.

#### Smooth Coating for a Professional Touch:

The paint is applied with a smooth and uniform coating, achieved through advanced painting techniques and processes. This attention to texture not only provides a tactile satisfaction but also enhances the car's visual appeal, ensuring a professional and flawless finish.

#### Weatherability and Durability for Long-Lasting Protection:

Our commitment to quality extends to the paint's weatherability and durability. Utilizing high-quality materials and additives, the paint is engineered to withstand harsh environmental conditions, including UV radiation, acid rain, and extreme temperatures. This ensures that the vehicle's appearance remains pristine over time, providing both protection and longevity.

In summary, the Changan Mazda 34K White Pearl Automotive Paint developed by our R&D team offers a combination of stunning pearlescent luster, high gloss, smooth coating, and robust weather resistance. This paint is an ideal choice for automotive refinishers seeking to deliver a high-quality, protective, and durable finish that meets the expectations of discerning customers and Mazda owners alike.

#### The mixing ratio:

Product Details	
Car brand:	Changan Mazda
Applicable models:	Angkesela
Color name:	Pearl White
Year:	2020 Models
Depth:	Standard
Remark: Construction process: paint and thinner 1:1, wet spray twice, medium wet spray Twice, mist once, and varnish twice.

1k mixing black	138	0.17	99.82
1K lemon yellow	121	0.12	99.94
1K mud yellow	136	0.06	100
Total:100g			
Recipe weight:100g			

#### Our advantage:

**R&D capabilities:** Our factory has a professional R&D team with rich automotive paint R&D experience and technical strength. They constantly pursue innovation and are committed to developing new formulas and technologies to meet market needs and customers' special requirements. Our R&D capabilities enable us to provide customized automotive paint solutions to meet the needs of different customers.

**Production equipment and technology:** Our factory is equipped with advanced production equipment and technology. These equipment and technologies ensure the stability, quality and efficiency of automotive paint. Meklon's factory adopts sophisticated production processes, from the selection of raw materials to the control of the production process, to ensure that each batch of automotive paint meets high standards and can be delivered to customers on time.

**Quality control:** Meklon's factory attaches great importance to quality control and has a strict quality management system. From the procurement of raw materials to the delivery of finished products, our factory implements strict quality inspection and monitoring to ensure that every automotive paint product meets international standards and customer requirements. Our

factories may also have quality management certifications such as ISO certification to demonstrate your commitment to quality.

**Resource advantages:** As a professional automotive paint manufacturer, our factory has abundant resource advantages. We can establish long-term and stable cooperative relationships with multiple suppliers to ensure stable supply and high quality of raw materials. In addition, our factories may have comprehensive logistics and distribution networks that can efficiently get products to customers.

**Technical support and after-sales service:** In addition to providing high-quality automotive paint products, our factory also provides comprehensive technical support and after-sales service. Our professional team can provide customers with technical consultation, training and guidance to ensure that customers can use and apply your products correctly. In addition, Meklon's factories are also able to respond promptly to customer needs and problems, providing fast after-sales service and solutions.
