Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Audi LY9C
- Minimum Order Quantity: 200L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Name: Kazakhstan 360-5
- Durability: Long-lasting And Reusable
- Main Raw Materials: Resine, Solvent, Pigment, LPG
- Product Usage: Exterior Car Cleaning
- Special Features: Scratch-free And Streak-free Formula
- Application Area: Chemical
- Mixer Type: Static Mixers
- Working: Agitator
- Product Application Method: Spray Bottle
- Storage: Cool And Dry Place
- Function: Cleaning
- Highlight: 360-5 Car Paint,
Automotive Professionals Car Paint,
Kazakhstan Car Paint

Product Description

Kazakhstan 360-5 Car Detailing Supplies for Optimal Performance

Manufacturer Introduction:

Welcome to Meklon's automotive paint manufacturing plant!

Our plant is located in Guangzhou, China, covering a large area, with advanced production facilities and technologies, dedicated to providing you with the highest quality automotive paint products.

The spacious and neatly laid out factory has more than 3,000 square meters of modern plant, ensuring an efficient and smooth production process.

In terms of production equipment, we have invested a lot of money to introduce internationally leading manufacturing equipment. From precise color matching systems to advanced mixing devices, to high-precision filling production lines, each link is equipped with the most advanced machines to ensure product consistency and high quality.

product description:

Kazakhstan Special Car Paint 360-5

Protect the car body from corrosion, increase the beauty of the car, and also express the owner's personality.

Compared with other paints, Meklon car paint has extremely high performance requirements, and needs to have good mechanical properties, fullness, hiding power, gloss, adhesion, hardness, scratch resistance, weather resistance, scratch

resistance, wear resistance, gloss persistence, and excellent gasoline resistance, alcohol resistance, acid resistance, alkali resistance, salt spray resistance and other properties.

Composition of car paint: mainly composed of resin, pigment, additives, filler, curing agent, solvent, etc., among which resin is the main component of paint, pigment gives the topcoat color and durability, and solvent is used to dissolve resin and adjust viscosity.

Classification of car paint: According to factors such as color, effect and composition, car paint can be divided into many types, such as ordinary paint, metallic paint, pearlescent paint, etc.

Painting process: The painting process of car paint usually includes steps such as primer, topcoat and varnish, which needs to be carried out in a professional paint shop to ensure the quality and effect of the paint film.

| code | name | Proportion | price | Amount |
|-------|------------------|------------|-------|--------|
| 412 | Medium silver | 22.58% | | 0.00 |
| 313 | Fine green pearl | 4.51% | | 0.00 |

Factory History and Achievements:

Meklon Automotive Paint Manufacturing Factory was established in 2010. Starting from the initial small-scale production, after years of unremitting efforts and continuous development, it has gradually emerged in the automotive paint industry.

In the early days of its establishment, facing fierce market competition and many technical difficulties, we adhered to the persistent pursuit of quality and innovative spirit, and continued to explore and try. By introducing advanced production technology and equipment and cultivating professional technical personnel, we have gradually accumulated rich production experience and professional knowledge. We continue to increase investment in research and development and are committed to improving product quality and performance. After countless experiments and improvements, we have successfully launched a series of automotive paint products with independent intellectual property rights, covering a variety of colors and functions, meeting the diverse needs of different customers.

In the past few decades, our factory has achieved many remarkable achievements. Our automotive paint products have not only been widely recognized and praised in the domestic market, but also successfully exported to many countries and regions, winning the favor of the international market.

We have established long-term and stable cooperative relations with many well-known automobile manufacturers, providing them with high-quality automotive paint solutions. At the same time, we actively participate in the formulation of industry standards and promote the advancement of industry technology, making important contributions to the development of the entire automotive paint industry.

Looking back on the past, we are deeply proud; looking forward to the future, we are full of confidence. We will continue to uphold the business philosophy of "quality first, innovation driven, customer first", constantly improve our own strength, provide customers with better products and services, and create more brilliance for the development of the automotive paint industry!
