### Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: F-119
- Minimum Order Quantity: 200L
- Price: 2.73/LUSD-5.56/LUSD
- Packaging Details: Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 200Lper day

### Product Specification

- Brand: Meklon
- Name: Purple
- Specification: 1Lx12
- Package: Can And Carton
- Net Weight: 0.95KG
- Application: Brush, Roller, Or Spray
- Coverage: High
- Durability: Long-lasting
- Fade Resistant: Yes
- Heat Resistance: Yes
- State: Liquid Coating
- Type: Automotive Paint
- Voc: Low
- Highlight: **Purple Car Paint Basecoat, Automotive Paint Industry Car Paint Basecoat,**

## Product Description

### Meklon is a leader in the automotive paint industry

As a professional automotive paint manufacturer, we have strong strength and excellent reputation.

Our factory is equipped with advanced production equipment to ensure that every production link is efficient and accurate. Our R&D engineer team constantly explores innovation, keeps up with the latest technological trends in the automotive paint industry, and is committed to providing customers with the highest quality and most innovative products.

Meklon's production staff have undergone rigorous professional training, and carefully create each automotive paint product with a high sense of responsibility and superb craftsmanship. From the beginning of the purchase of raw materials, we strictly control to ensure that only high-quality and environmentally friendly raw materials are selected. Our raw material procurement staff works closely with high-quality suppliers around the world to ensure a stable supply and high quality of raw materials.

Quality is our lifeline. We have professional quality inspection personnel who use advanced testing equipment and strict testing standards to conduct comprehensive inspections on each batch of products to ensure stable and reliable product quality. Only products that pass strict testing will be launched on the market, which is one of the important reasons why we rank among the top ten in the automotive paint industry in China.

Our sales team is spread all over the world and has established long-term and stable cooperative relations with dealers in various countries around the world. We have won wide love and high praise from dealers with affordable prices, excellent product quality and high-quality services. At present, our products are supplied to major countries in the world, and sales continue to rise.

We not only provide high-quality products, but also have a complete after-sales service system. Our after-sales staff provide technical support and solutions to customers at any time to ensure that customers have no worries when using our products.

### Product Introduction:

1K paint is also called one-component paint. Meklon purple car paint can present a unique and bright purple color, giving the car a personalized appearance.

The construction is relatively simple: you only need to add a thinner to spray, and the operation is relatively easy to use.

#### 2. Ingredients

It is mainly composed of pigments, resins, solvents and additives.

The pigment gives the paint its purple color and is carefully formulated to ensure the accuracy and stability of the color.

The resin plays a role in bonding the pigment and providing paint film properties, such as hardness and gloss.

The solvent is used to adjust the viscosity of the paint to make it easier to apply.

Additives can improve various properties of the paint, such as leveling and weather resistance.

#### 3. Performance

Gloss: After correct construction and drying, it can present a higher gloss, making the car surface smoother and brighter.

Hardness: It has a certain hardness and can resist minor scratches and wear.

Weather resistance: To a certain extent, it can resist the influence of natural factors such as sunlight, rain, temperature changes, etc., and maintain the durability of the color and the integrity of the paint film.

#### 4. Application scenarios

Car repair: When scratches, wear or local damage appear on the surface of the car, 1K purple car paint can be used for local repair to restore the damaged parts to beauty.

Car modification: For car owners who pursue individuality, 1K purple car paint can be used to change the color of the whole car or partial decoration to create a unique car appearance.

#### 5. Precautions for use

Construction environment: Construction should be carried out in a dry, clean and well-ventilated environment to avoid dust, moisture and other factors that affect the quality of the paint.

Surface treatment: Before construction, the surface of the car needs to be fully cleaned, polished and primed to ensure the adhesion of the paint.

Drying time: Different ambient temperature and humidity will affect the drying time of the paint. You should wait for enough time for the paint to dry completely according to the product instructions.

Storage conditions: Unused 1K purple car paint should be sealed and stored in a cool and dry place, avoiding direct sunlight and high temperature.

We are a manufacturer, mainly promoting wholesale, minimum purchase of 100L.

The product quality is good, the shelf life is up to 3-5 years, some dealers import several containers every month, and even store the products in the warehouse for 7 years and they are still intact, which makes our reputation better and better. Our after-sales service is very good, if you have any questions after sales, please feel free to contact our responsible personnel to help you solve the problem. The product effect is also very good, which makes many local spray painters and spray paint shops like it.

#### **Customer feedback:**

**Mr. Ifeanyi Mbanugo from Congo said:** "Since cooperating with Meklon, we have truly felt the strength of professional automotive paint manufacturers. Their product quality is very stable, and both the vividness of the color and the durability of the paint have exceeded our expectations. Moreover, their prices are affordable and very competitive in the market, allowing us to gain more recognition from customers during the sales process. At the same time, their after-sales service is also very good, and any problems can be solved in a timely manner, which makes us feel very relieved to cooperate with them."

**Mr. Divine from Mexico:** "Meklon's automotive paints have performed extremely well in our country's market. Their R&D capabilities are amazing, and they always come up with new colors and new formulas that meet current trends and customer needs. The factory's production efficiency is also very high, and there has never been a shortage of stock. We are very fortunate to be able to cooperate with such an excellent company and look forward to continuing to work together in the future."

**Mr. Aidee Ruela from Russia said:** "Choosing Meklon's car paint is one of the best decisions we have ever made. Their products are well-equipped and have strict quality inspections, which gives us confidence when recommending them to customers. Customers also speak highly of their car paint, saying that the color is long-lasting and bright and does not fade easily. In addition, the company's sales team is very professional and enthusiastic, and always provides us with the latest product information and market trends in a timely manner, helping us to better expand our business."

MINIMUM ORDER

200  boxes

Choosing to cooperate with us means choosing quality, innovation and success. No matter which region you are from, we will work with you to create a better future with the greatest sincerity, the best products and services. Let us shine together in the field of automotive paint and contribute to the development of the global automotive industry.
