

Specialized Car Paint Basecoat Manufact For Auto Paint Business

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meishilianke
- Certification: ISO,MSDS,SGS
- Model Number: 125
- Minimum Order Quantity: 200L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Name: Orange
- Code: 125
- Voc Level: Low
- Net Weight: 0.95KG
- Heat Resistance: Yes
- Protection: UV-resistant
- Sheen: High Gloss
- Uv Resistance: Yes
- Material: Acrylic
- Application Method: Brush, Roller, Or Spray
- Adhesion: Strong
- High Light: 1K Basecoat
- Highlight: **UV-resistant Car Paint Basecoat,
Low Voc Car Paint Basecoat,
Specialized Car Paint Basecoat**

Product Description

Manufacturer introduction:

In the vast world of automotive paint, Meklon has become a shining star in the industry with its excellent quality and innovative spirit. Since its establishment in 2010, we are about to usher in a glorious 15th anniversary.

Looking back, we started from a small processing plant, with our love and persistence in the automotive paint industry, and continued to grow step by step. Today, we have a huge raw material supply system, high-quality canning production lines and efficient production workshops, forming a complete set of production series. The total area of the company reaches more than 3,000 square meters, providing sufficient space for our production and R&D.

We are proud that we have a strong team of more than 200 professional workers. They are skilled and experienced, and with a high sense of responsibility and professionalism, they ensure that every production process is refined. At the same time, we have more than 10 experienced R&D engineers who keep up with the development trend of the industry, constantly explore and innovate, and are committed to providing customers with better quality, more environmentally friendly and more competitive automotive paint products.

It is worth mentioning that our company has also hired 2 paint mixing masters from PPG, the world's top automotive paint company. With their deep professional knowledge and rich practical experience, they check the color of our products to ensure that the color of each car paint is accurate and bright.

In our product series, 1K bright red car paint is particularly prominent. This car paint uses high-quality raw materials, and after a strict production process and a fine color mixing process, it presents a stunning bright red color. It has excellent hiding power, durability and gloss, which can give the car a unique charm and personality. Whether it is used for car repair or whole vehicle spraying, 1K bright red car paint can show excellent performance and make your car look brand new.

Product details:

The 1K Bright Red car paint produced by Meklon factory has become the favorite of many dealers for its excellent quality, long shelf life and affordable price.

This 1K Bright Red car refinish paint has a bright and eye-catching color, like a burning flame, which can instantly give the car a strong visual impact. Its unique formula ensures the stability and durability of the color, whether it is exposed to the sun or in harsh climate conditions, it can remain bright and new.

The long shelf life is a highlight of this car paint. It has undergone strict quality testing and careful formula design, and has excellent durability, which reduces inventory pressure and product loss risks for dealers. Dealers can stock up this product without worrying about expiration issues and meet customer needs at any time.

Meklon provides a strong guarantee for product quality. We are well aware that quality is the lifeline of the company, so we strictly control every link from the selection of raw materials to the production process to ensure that every drop of 1K Bright Red car paint meets high standards of quality requirements. This quality guarantee gives dealers confidence in the sales process and can promise reliable quality to customers.

Affordable price is another advantage of this car paint. Meklon factory passes on the benefits to dealers by optimizing production processes and reducing costs. Under the premise of ensuring quality, it supplies the market at a competitive price, allowing dealers to obtain higher profit margins. For customers who pursue cost-effectiveness, this car paint is undoubtedly an ideal choice.

The hot sales of the product are not accidental. It is popular in the market with its excellent performance, attractive price and good reputation. Many dealers reported that this 1K bright red car paint brought them huge sales. Its wide applicability, whether it is used for car repair, modification or whole vehicle spraying, can meet the needs of different customers.

For dealers, there are many benefits to purchasing Meklon's 1K bright red car paint. First, the long shelf life reduces the difficulty and cost of inventory management. Secondly, the quality guarantee makes sales smoother and enhances the trust of customers. Moreover, the affordable price can attract more customers and improve market competitiveness. Finally, the hot-selling products can be quickly turned around and bring considerable profit returns.

We always adhere to customer-centricity and continuously improve product quality and service level. We not only provide high-quality automotive paint products, but also provide customers with professional technical support and after-sales service to ensure that customers have no worries in the process of using our products.

Looking to the future, we will continue to uphold the business philosophy of "quality first, innovation-led, and customer service", continue to forge ahead, and contribute more to the development of the automotive paint industry. Choosing Meklon means choosing quality and trust!
