

High Performance Car Paint Basecoat For Professional Auto Paint

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: 126
- Minimum Order Quantity: 200L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Name: Brilliant Red
- Code: 126
- Color: Red
- Net Weight: 0.95KG
- Heat Resistance: Yes
- Protection: UV-resistant
- Sheen: High Gloss
- Uv Resistance: Yes
- Material: Acrylic
- Application Method: Brush, Roller, Or Spray
- Adhesion: Strong
- High Light: 1K Basecoat
- Highlight: High Performance Car Paint Basecoat,
Wholesale Car Paint Basecoat,
UV Resistance Auto Paint Basecoat

Product Description

Manufacturer introduction:

Our production plant was established in 2010. It has gradually grown from an initial small factory to a modern enterprise with large production scale, complete industrial chain, advanced equipment and high production efficiency.

Production scale: The factory covers a large area and has many advanced automated production lines to meet the needs of different customers.

Complete industrial chain: From raw material procurement, production and processing, quality inspection to packaging and transportation, a complete industrial chain has been formed to ensure the quality and supply stability of the products.

Advanced equipment: Advanced domestic and foreign production equipment and technologies such as automated spraying equipment and high-precision testing instruments have been introduced to improve production efficiency and product quality.

High production efficiency: By optimizing production processes, strengthening management and technological innovation, we continuously improve production efficiency and reduce production costs.

Staff: We have more than 200 professional production staff who are experienced and skilled, and can guarantee the quality and production progress of our products. In addition, there are 8 R&D masters who are committed to the development of new products and technological innovation; 10 sales teams who actively expand the market and provide customers with high-quality products and services; 20 after-sales staff who promptly solve customer problems and feedback to ensure customer satisfaction.

In short, our 1K white car paint has won high praise and satisfaction from our customers for its high quality, good effect, high gloss, weather resistance and reasonable price, as well as perfect after-sales service. We will continue to work hard to continuously improve product quality and service level and provide customers with better products and services.

Product details:"1K Bright Red Car Paint" is a one-component car paint.

"1K" means that this paint has only one component, and other additives such as curing agents are usually added to achieve the best use effect. Bright red is a bright and eye-catching color, often used in the exterior painting of cars to increase the visual appeal of the vehicle.

Bright color: Bright red can bring a strong visual impact to the car, making the vehicle more eye-catching.

High gloss: After correct application and treatment, 1K Bright Red Car Paint can present a high-gloss surface, making the car look smoother and brighter.

Convenient application: One-component paint is relatively simple to apply and does not require complicated mixing and blending processes.

When using 1K Bright Red Car Paint, you need to pay attention to the following points:

Surface treatment: Before application, the surface of the car needs to be thoroughly cleaned and polished to ensure that the paint can adhere firmly to the surface.

Application environment: Choose a suitable application environment and avoid application in a humid, dusty or low temperature environment.

Spraying techniques: Master the correct spraying techniques, such as the distance, angle and spraying speed of the spray gun, to ensure uniform distribution of paint and a good appearance.

Quality: Use high-quality raw materials to ensure the stability and reliability of the paint. After strict quality inspection, it meets relevant industry standards and environmental protection requirements. It has good adhesion and can be firmly attached to the surface of the car and is not easy to fall off.

Effect: The color is pure, the white is bright and bright, giving people a fresh and clean feeling. It can effectively cover the flaws and scratches on the surface of the car, making the surface of the car body smoother. It has a certain glossiness and can enhance the appearance texture of the car.

The shelf life of 1K red auto repair paint is generally about 12 months to 24 months, depending on the storage conditions and packaging methods. During storage, it should be avoided from direct sunlight, high temperature, humidity and other environments to avoid affecting the quality and performance of the paint. At the same time, the paint should be sealed to prevent solvent evaporation and air from entering.

Our 1K red car paint has won high praise and satisfaction from customers for its high quality, good effect, high gloss, good weather resistance and reasonable price. It has complete certificates, including MSDS, customs appraisal report, VCO compliance certificate, etc. Customer feedback shows that the paint is easy to use, dries quickly, has pure color, high gloss, good weather resistance, and can meet the needs of different customers. We have been committed to providing customers with high-quality products and services, and constantly improving and enhancing product quality to meet customer expectations and requirements.
