Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Grinding machine
- Minimum Order Quantity: 200piece
- Price: 0.85USD/piece5.56USD/piece
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 5000piecel per day

Product Specification

- Name: Grinding Machine
- Size: Various Sizes Available
- Working: Agitator
- Scent: Various Scents Available
- Product Type: Cleaning And Detailing Products
- Type: Care Products
- Model No: 1222
- Shelf Life: 2 Years
- Ease Of Use: User-friendly Application
- Color: White
- Durability: Long-lasting Protection
- Specification: 180mm
- Usage: Exterior
- Effectiveness: Provides A Deep Clean And Shine
- Colors: More Than 100 Colors

Product Description

Company Profile

Welcome to learn about our outstanding strength as a manufacturer of automotive paint beauty products. Our factory is committed to providing the automotive beauty industry with a series of high-quality, innovative and reliable products to meet the growing needs of the market.

1. Advanced Production Facilities

Our factory is equipped with advanced production equipment and technology to ensure that every product is strictly quality controlled. From the selection of raw materials to the packaging of finished products, every link is monitored by a professional team to ensure the stability and excellent performance of the products.

We have a modern production line that can efficiently produce a variety of automotive paint beauty products such as grinders, polishers, G3 and G4 wax oils, Putty, funnel paper, non-woven fabrics, etc. These equipment not only improve production efficiency, but also ensure product consistency and high quality.

2. High-quality product series

Grinding machine: Our grinding machine is manufactured with advanced technology and high-quality materials, with the characteristics of efficient grinding, precise control, safety and reliability. Whether it is removing old paint, scratches or oxide layers, our grinding machine can complete the task quickly and effectively, laying a solid foundation for subsequent beauty processes.

Polishing machine: Our polishing machine is well designed and can provide high speed and stable performance, so that the car surface can achieve a smooth mirror effect. It has an adjustable speed function, which is suitable for different polishing needs, making your car look brand new.

G3 and G4 wax oil: Our wax oil products use high-quality raw materials and can provide excellent protection and gloss effects. G3 and G4 wax oils have different characteristics to meet the needs of different customers and provide lasting protection for the car surface.

Putty: Our Putty products have good filling and adhesion, and can effectively repair dents and scratches on the car surface. It is easy to apply and dries quickly, providing convenience for your car repair work.

Funnel paper and non-woven fabrics: Our funnel paper and non-woven fabric products are of high quality and have good filtration and water absorption. They are suitable for various links in the process of car paint beauty, providing a clean and tidy environment for your work.

3. Professional R&D team

Meklon has a professional R&D team who constantly pay attention to market trends and customer needs, and are committed to developing more innovative and competitive products. We maintain close cooperation with scientific research institutions and experts at home and abroad, and continuously introduce advanced technologies and concepts to inject new vitality into our products.

4. Perfect after-sales service

Meklon not only provides high-quality products, but also provides perfect after-sales service. Our customer service team is always available to answer your questions, provide technical support and solutions. We also provide training and marketing support for dealers to help you sell our products better.

5. Cooperation advantages

High-quality product quality: Our products undergo strict quality testing to ensure compliance with international standards and customer needs.

Competitive prices: We provide dealers with competitive prices by optimizing production processes and cost control.

Stable supply capacity: We have strong production capacity and perfect supply chain management, which can guarantee stable supply.

Brand support: We focus on brand building, enhance brand awareness through advertising, exhibitions and other means, and bring more business opportunities to dealers.

Choose to cooperate with us, you will get high-quality products, professional services and broad market prospects. Let us work together to create a bright future for the automotive paint beauty industry!

Looking forward to your joining!

Product Introduction

1. Product Overview

Car beauty sanding machine is mainly used to remove old paint, scratches, oxide layer and other defects on the surface of the

car, preparing for subsequent painting, polishing and other processes. It can quickly and effectively improve the appearance of the car by fine grinding the surface of the car through high-speed rotating grinding disc or grinding wheel.

2. Product Features

Efficient grinding

Equipped with a powerful motor, it can provide high speed and high torque to ensure the rapid removal of various stubborn stains and defects.

Different specifications of grinding discs or grinding wheels are available to meet different grinding needs.

Precise control

Usually with adjustable speed function, you can accurately adjust the speed of the sanding machine according to different materials and grinding tasks.

The ergonomically designed handle makes you more comfortable and stable when operating, and facilitates precise control of the strength and direction of grinding.

Safe and reliable

Equipped with safety protection devices, such as protective covers, overload protection, etc., to effectively prevent accidents during the grinding process.

High-quality materials and exquisite manufacturing process ensure the durability and reliability of the grinder.

Easy to operate

The operation is simple, even users without professional experience can quickly get started.

Lightweight and compact design, easy to carry and use, suitable for various car beauty places.

3. Usage method

Preparation

Select a suitable grinding disc or grinding wheel and install it on the grinder.

Check whether the various parts of the grinder are firmly installed to ensure safety.

Wear personal protective equipment such as protective glasses and masks.

Grinding operation

Gently touch the grinder to the surface of the car, start the motor, and start grinding.

Keep the grinder moving at a constant speed and avoid staying in the same position for too long to avoid excessive grinding.

Adjust the speed and grinding intensity of the grinder as needed.

Cleaning and maintenance

After grinding, turn off the grinder and clean the dust and impurities on the grinding disc or grinding wheel.

Regularly maintain the grinder, such as adding lubricating oil and checking the motor, to extend its service life.

4. Precautions

Before using the grinder, be sure to read the product manual carefully to understand the correct usage and safety precautions.

Choose the appropriate grinding disc or grinding wheel, and avoid using mismatched accessories to avoid affecting the grinding effect and safety.

During the grinding process, pay attention to keeping the grinder stable, avoid shaking and shaking, so as not to cause accidental injuries.

Do not use the grinder in a humid or flammable environment to avoid electrical failure or fire.

Check the wires and plugs of the grinder regularly to ensure that they are intact to avoid electric shock accidents.

In short, the car beauty grinder is a very practical car beauty tool that can help you quickly and effectively remove defects on the surface of the car and improve the appearance quality of the car. During use, pay attention to safe operation, correctly select and use the grinding disc or grinding wheel, and regularly maintain the grinder to ensure its performance and service life.

1. Benefits that products can bring

1. Meet the needs of different customers

Due to the good quality of funnel paper and the variety of holes, dealers can provide products suitable for different types of auto repair shops. Whether it is a large-scale repair shop that pursues efficient filtration or a high-end auto beauty shop that focuses on fine repairs, they can find suitable funnel paper here at the dealer, thereby expanding the dealer's customer base. Different auto repair scenarios have different requirements for funnel paper. The diverse product selection allows dealers to better meet the personalized needs of customers and improve customer satisfaction and loyalty.

2. Improve sales performance

High-quality funnel paper has high competitiveness in the market. Dealers can attract more customers and increase sales with high-quality products, thereby improving sales performance.

The rich selection of hole numbers also provides dealers with more sales opportunities, and can make accurate recommendations based on the specific needs of customers to improve sales success rate.

3. Build a good reputation

Providing good quality funnel paper can help auto repair shops improve work efficiency and repair quality. Customer satisfaction with funnel paper will be transformed into trust and praise for dealers, thereby establishing a good reputation in the industry.

Good reputation can attract more potential customers, expand dealers' market influence, and lay the foundation for long-term business development.

5. Reduce after-sales costs

High-quality funnel paper has a long service life and stable performance, and is not prone to quality problems. This can reduce dealers' after-sales costs and reduce returns and repair costs caused by product quality problems.

Reducing after-sales problems also helps dealers save time and energy and better focus on sales and market expansion.

2. Favorable impact on business

Enhance market competitiveness

In the highly competitive automotive repair product market, having high-quality and diversified funnel paper products can make dealers stand out. Compared with other competitors, dealers are able to provide better products and more comprehensive services, thereby enhancing market competitiveness.

You can carry out differentiated marketing by highlighting the quality and characteristics of funnel paper to attract more customers to choose your products.

Expand business channels

High-quality funnel paper can be used as a powerful tool for dealers to expand their business channels. Dealers can establish long-term cooperative relationships with auto repair shops, auto beauty shops, auto parts stores, etc., and include funnel paper in their purchase lists.

You can also showcase your products, meet more potential customers and partners, and expand business channels by participating in automotive industry exhibitions, seminars and other activities.
