

Strong Adhesive Car Detailing Supplies For Product Assembly And Packaging

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Adhesive tape
- Minimum Order Quantity: 200piece
- Price: 2.75USD/piece-5.56USD/piece
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500piece per day

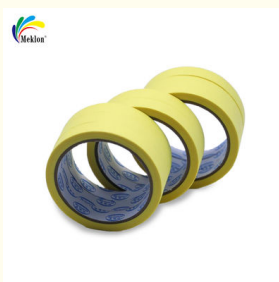

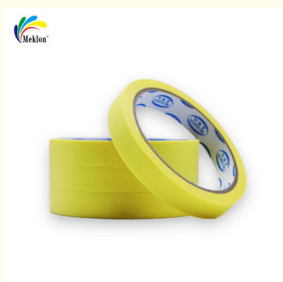

Product Specification

- Name: Adhesive Tape
- Specification: 36roll/caeton
- Shelf Time: 5 Years,at 20
- Uv Protection: Yes
- Surface Finish: Smooth
- Coverage: 1 Coat
- Usage: Exterior
- Mixer Type: Static Mixers
- Type: Car Care
- Trademark: Meklon
- Highlight: **Strong Adhesive Packaging Car Detailing Supplies**
, Strong Adhesive Car Detailing Supplies,
Product Assembly Car Detailing Supplies

Product Description

Product Introduction

1. Material

Usually composed of substrate and adhesive.

Substrate: Generally BOPP (biaxially oriented polypropylene film), PVC (polyvinyl chloride), etc. BOPP-based sealing tape has the advantages of high strength, good transparency, and low cost; PVC-based tape has good flexibility and weather resistance.

Adhesive: Mainly water-based acrylic adhesive and hot melt adhesive. Water-based acrylic adhesive has the characteristics of environmental protection and good initial adhesion; hot melt adhesive has the advantages of high bonding strength and fast curing speed.

2. Features

Strong viscosity: It can firmly bond various items to ensure the sealing and stability of the packaging.

Easy to tear: It can be easily torn by hand without the use of tools such as knives, which improves the convenience of use.

High transparency: For items that need to display the contents of the package, transparent sealing tape can not affect the appearance.

Good weather resistance: It can maintain good viscosity and performance under different temperature and humidity conditions.

3. Uses

Packaging: used to seal cartons, wrap items, etc., to prevent items from being scattered or damaged during transportation and storage.

Office: can be used to paste documents, repair books, etc.

Home: used to organize sundries, fix items, etc.

Industrial: plays an important role in product assembly, packaging and other links.

4. Selection considerations

Viscosity: Choose adhesive tape with appropriate viscosity according to different usage requirements. If you need to pack heavy objects or use it in harsh environments, you should choose products with stronger viscosity.

Width and length: Choose adhesive tape with appropriate width and length according to the size of the packaged items to avoid waste.

Quality: Choose brand products with reliable quality to ensure the adhesive tape's viscosity, durability and other properties.

Environmental protection: If you have requirements for environmental protection, you can choose water-based adhesives or degradable sealing tapes.

Company Profile

We are a leading manufacturer of chassis armor for automotive paint repair in China. With nearly 15 years of dedicated experience in the automotive repair products industry, we have established ourselves as a trusted name.

Meklon unwavering commitment to product quality is at the core of everything we do. We source only the highest quality raw materials to ensure that our chassis armor offers exceptional durability and protection. Whether it's resisting rust, corrosion, or impacts from stones and debris, our product stands up to the toughest challenges on the road.

Not only is our chassis armor of superior quality, but it also comes at an affordable price. We understand the importance of providing value to our customers without compromising on performance.

Moreover, we offer custom sizing options to meet the diverse needs of different vehicles and repair scenarios. No matter what the specifications are, we can tailor our chassis armor to fit perfectly.

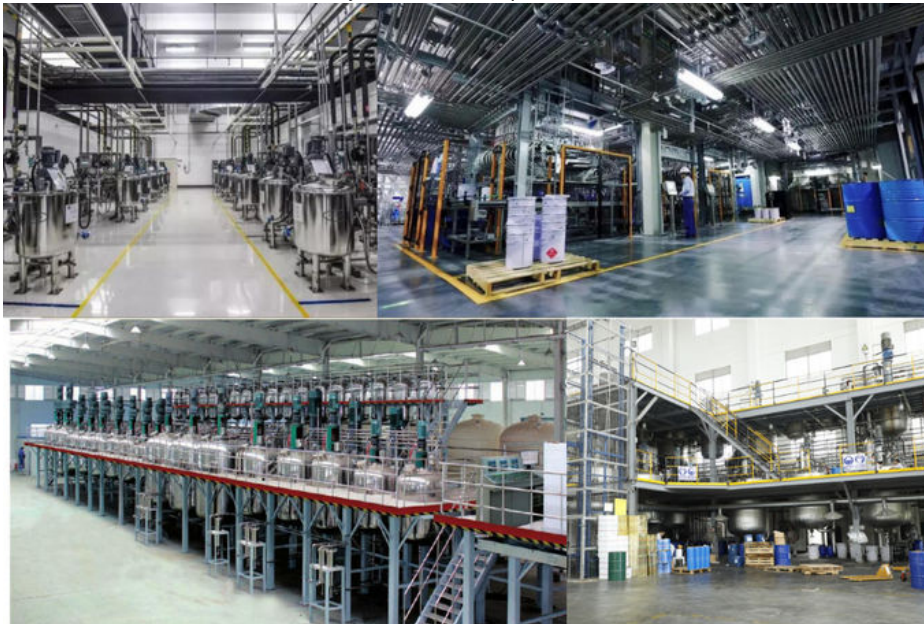

As a wholesale manufacturer, we distribute our products to dealers around the world. By partnering with us, dealers gain a significant competitive advantage. Our reliable supply chain and excellent customer service ensure that they can meet the demands of their customers promptly.

Choose our chassis armor and experience the difference that quality, affordability, and customization can make. Let us help you take your automotive repair business to new heights.

We always regard product quality as the lifeline of the company, and the persistent pursuit of quality is reflected in every link. Starting from the selection of raw materials, we only use high-quality raw materials to ensure that the tape has excellent adhesion, weather resistance and wear resistance, and can play an excellent role in the automotive paint repair process.

Meklon product size can be customized according to customer needs to meet the requirements of different car models and repair scenarios. Whether it is a small car or a large commercial vehicle, we can provide suitable tape solutions. We sell our products to dealers all over the world in a wholesale sales model. Dealers will gain huge business advantages by cooperating with us. Our products are reliable in quality and affordable in price, which can provide dealers with higher profit margins and market competitiveness. At the same time, our efficient production and supply capabilities ensure that dealers can meet customer needs in a timely manner and improve customer satisfaction.

In the process of cooperation, many dealers have achieved remarkable success. For example, after introducing our adhesive tape products, Mr. Andy from France met the needs of different local customer groups with its excellent quality and diverse size options. Their business volume increased significantly in a short period of time, customers gave rave reviews, and their market share continued to expand. Another example is Mr. Yira from Dubai, who, through close cooperation with us, customized the size of adhesive tape that meets the characteristics of the local market, which not only improved work efficiency but also reduced costs. Their success stories fully demonstrate the value of our products and the advantages of cooperation. Choosing our automotive paint repair tape is choosing quality, choosing professionalism, and choosing success. Let us work together to contribute to the development of the automotive repair industry.
