

## Car Paint Scratch Repair Automotive Paint Green Ceramic Coating Car Auto Body Paint

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: 116
- Minimum Order Quantity: 200L
- Price: 4.76USD/L-5.39USD/L
- Packaging Details: Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes per day

#### Product Specification

- Brand: Toyota
- Color: Champagne Gold
- Code: 700
- Net Weight: 0.95
- Drying Time: 2-3 Hours
- Durability: High
- Heat Resistance: Good
- Product Name: Ready Mixed Car Paint
- Weather Resistance: Good
- Application Method: Brush/Roller/Spray
- Highlight: Green Ceramic Coating Car Paint, Automotive Paint Scratch Repair

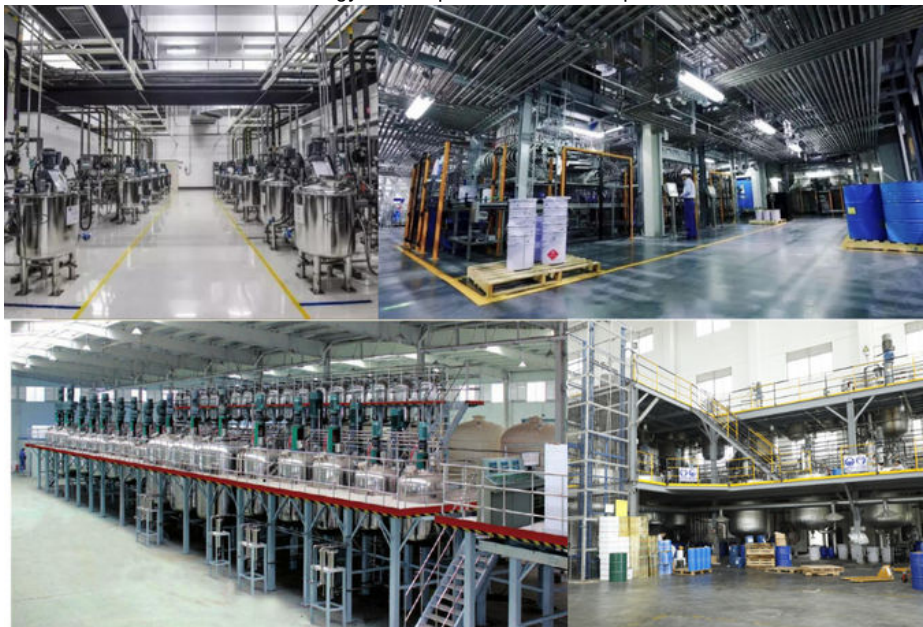

## Product Description

### Car Paint Scratch Repair Automotive Paint Green Ceramic Coating Car Auto Body Paint

#### Manufacturer Introduction:

Meklon is an automobile paint manufacturer. The auto paint manufacturing plant covers an area of 3,000 square meters. It is a modern production base integrating innovation, efficiency and quality. Meklon has a research department, a testing department, a production department, a sales department, and an after-sales department. The production is rigorous and orderly. The monthly export sales volume reaches 10 containers around the world. The product quality is good and it is very popular. It is deeply loved by automobile paint dealers and auto repair shops around the world.

Meklon has been committed to the innovation and development of automobile paint. It has highly official automobile paints for various models and various colors for various models. It has various colors commonly used for Toyota, Honda, Nissan, Volkswagen, etc. It has its own paint formula system, color cards, and color guides. Its automobile paint finished paint is a combination of advanced technology and exquisite craftsmanship.

#### Product Introduction:

Meklon Toyota Red Car Paint is a very popular car paint that is loved by dealers.

The storage conditions of this car paint are: ventilation, dry, around 25 degrees Celsius, and light-shielded.

From a visual point of view, Red Car Paint presents a bright, rich and warm red tone. Its color saturation is high, with a strong visual impact, which can make the vehicle stand out in the traffic. This red is not the kind of bright red that is too glaring, but has a certain depth and texture. Under different light conditions, it may show different color levels and glossiness, sometimes bright, sometimes deep, giving people a rich visual experience.

In terms of quality, the paint storage shelf life is 1-5 years, and the use effect is extremely weather-resistant. Some auto repair shops report that their customers can even use it for more than 10 years. Meklon's car paint usually has good durability and corrosion resistance. Toyota Chixia Red car repair paint is no exception. It can withstand various environmental tests in daily use, such as sun exposure, rain erosion, dust erosion, etc., and maintain the brightness of the color and the integrity of the paint surface for a long time. It is not easy to fade, discolor or damage the paint surface.

Meklon car paint Chixia Red car paint also has good leveling and adhesion during the construction and spraying process. It can evenly cover the surface of the car body to form a smooth and flat paint effect, which adds a lot of color to the appearance of the vehicle.

Meklon's car repair paint is deeply loved by traders all over the world. It has good product quality, affordable price, long shelf life, good service, professional team, large company scale, and supports customized cans and cartons.

Choose Meklon car paint manufacturer, long-term cooperation, more and more business, let us develop the car paint business together!

#### **Car care paint advantages:**

Meklon Automotive Coatings: A Superior Choice

**Uncompromising Quality:** Meklon is renowned for its exceptional quality standards.
