

## Highly Durable Toyota 199 Refinish Car Paint Protect Your Car For Years

Our Product Introduction

for more products please visit us on [refinishcarpaint.com](http://refinishcarpaint.com)

### Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Toyota 057
- Minimum Order Quantity: 200L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

### Product Specification

- Name: Toyota 057
- Durability: Long-lasting And Reusable
- Main Raw Materials: Resine, Solvent, Pigment, LPG
- Product Usage: Exterior Car Cleaning
- Special Features: Scratch-free And Streak-free Formula
- Colors: More Than 100 Colors
- Application Area: Chemical
- Mixer Type: Static Mixers
- Working: Agitator
- Storage: Cool And Dry Place
- Function: Cleaning
- Highlight: **Protect Your Car Refinish Car Paint,  
Highly Durable Refinish Car Paint,  
199 Refinish Car Paint**

## Product Description

### Highly Durable Toyota 199 Refinish Car Paint Protect Your Car For Years

#### Manufacturer Introduction:

I am an automotive paint manufacturer with my own factory, which covers an area of 3,000 square meters. I have been engaged in the automotive paint industry for 20 years. We have independent laboratories and R&D teams, production teams, sales teams, after-sales teams, etc. We are fully equipped with our own masterbatch charts and color cards. We have independently developed color matching for various types of finished paints, as well as a separate set of finished paints for Russian and Kazakh models. We have a color mixing formula software app. At present, our finished paints are very mature, with monthly sales reaching 5 million.

#### product description:

Toyota 057 brown car paint, to be precise, is Toyota's "Golden Pearl (057)" color car paint.

**Color characteristics:** This brown presents a unique visual effect and has a high degree of recognition. Under different lighting conditions, the depth and tone of its color will change to a certain extent, which can show a rich sense of layering and give people an elegant and stable feeling.

**Quality and performance:**

**Good covering power:** It can effectively cover the surface defects and base color of the car body, making the paint surface look more uniform and smooth.

**Good weather resistance:** It can withstand the test of daily wind, sun, rain and other natural environments, and is not easy to fade or discolor, and maintain the color brightness and glossiness for a long time.

**Scratch and wear resistance:** It has certain scratch and wear resistance, can resist minor scratches and wear that may be encountered in daily driving, and protect the surface of the car body.

**Applicable models and repairs:** Some specific models of Toyota will use this 057 brown car paint. When the vehicle has scratches, bumps and other paint damage, you can use a special Toyota 057 brown touch-up paint product to repair it. Touch-up paint products usually come in two forms: brush (brush) and aerosol (spray). Small scratches or paint peeling can be repaired with a brush, which is almost invisible; if the damaged area is large, choose the spray form.

**Environmental protection:** It is a water-based car paint, an environmentally friendly paint with a low content of volatile organic compounds (VOCs), and has little impact on the environment and human health.

In general, Toyota 057 brown car paint has good performance in color, quality, applicability, etc., and is a more distinctive color in Toyota's car paint series. However, if you need to paint or touch up the vehicle, it is recommended to choose a professional auto repair shop or paint service provider to ensure the paint effect and quality.

Toyota 057				
code	name	Proportion	price	Amount
404	Fine silver	63.00%		0.00
407	Fine white silver	27.30%		0.00

150	1K color control agent	1.01%		0.00
total		100.00%		0.000

#### **Factory History and Achievements:**

Meklon Automotive Paint Manufacturing Factory was established in 2010. Starting from the initial small-scale production, after years of unremitting efforts and continuous development, it has gradually emerged in the automotive paint industry.

In the early days of its establishment, facing fierce market competition and many technical difficulties, we adhered to the persistent pursuit of quality and innovative spirit, and continued to explore and try. By introducing advanced production technology and equipment and cultivating professional technical personnel, we have gradually accumulated rich production experience and professional knowledge. We continue to increase investment in research and development and are committed to improving product quality and performance. After countless experiments and improvements, we have successfully launched a series of automotive paint products with independent intellectual property rights, covering a variety of colors and functions, meeting the diverse needs of different customers.

In the past few decades, our factory has achieved many remarkable achievements. Our automotive paint products have not only been widely recognized and praised in the domestic market, but also successfully exported to many countries and regions, winning the favor of the international market.

We have established long-term and stable cooperative relations with many well-known automobile manufacturers, providing them with high-quality automotive paint solutions. At the same time, we actively participate in the formulation of industry standards and promote the advancement of industry technology, making important contributions to the development of the entire automotive paint industry.

Looking back on the past, we are deeply proud; looking forward to the future, we are full of confidence. We will continue to uphold the business philosophy of "quality first, innovation driven, customer first", constantly improve our own strength, provide

customers with better products and services, and create more brilliance for the development of the automotive paint industry!
