## Product Description

### product description:

1K Yellow Green Car Refinish Paint usually has a bright yellow-green hue and is used to repair scratches, wear and tear or damaged areas on the vehicle surface.

High-quality formula: Porshiche brand 1K repair paint may use a high-quality formula to ensure long-lasting repair effects.

High-quality 1K Yellow Green Car Paint has good hiding power, durability and color stability, which can effectively repair the vehicle surface and maintain the appearance consistency of the repaired area.

Precise color matching: Yellow Green Auto Paint may be precisely color matched to ensure a perfect match with the original color of the vehicle.

Easy to use: Meklon 1K Yellow Green Refinish Paint may be designed to be simple and easy to use, making the repair process more convenient and quick.

Weather resistance: This repair paint may have good weather resistance and can resist daily environmental impacts, keeping the repaired area clear and bright for a long time.

Professional repair effect: Using Porshiche brand 1K Yellow Green Car Refinish Paint may be able to achieve professional-level repair results, making the vehicle surface look brand new.

Shelf life: Generally speaking, the shelf life of 1K Yellow Green Car Refinish Paint is 3-5 years, and it can usually remain stable for a certain period of time under correct storage conditions. It is recommended to use it within the shelf life to ensure the best effect.

Storage conditions: 1K yellow-green car repair paint should be stored in a dry, cool, ventilated place, away from high temperature, fire and direct sunlight to avoid caking or deterioration.

Popularity: 1K yellow-green car repair paint with high quality and bright color usually has a high market demand and popularity, and is deeply loved by suppliers from various countries.

### Manufacturer Introduction:

I am an automotive paint manufacturer with my own factory, which covers an area of 3,000 square meters. I have been engaged in the automotive paint industry for 20 years. We have independent laboratories and R&D teams, production teams, sales teams, after-sales teams, etc. We are fully equipped with our own masterbatch charts and color cards. We have independently developed color matching for various types of finished paints, as well as a separate set of finished paints for Russian and Kazakh models. We have a color mixing formula software app. At present, our finished paints are very mature, with monthly sales reaching 5 million.

#### **Factory History and Achievements:**

Meklon Automotive Paint Manufacturing Factory was established in 2010. Starting from the initial small-scale production, after years of unremitting efforts and continuous development, it has gradually emerged in the automotive paint industry.

In the early days of its establishment, facing fierce market competition and many technical difficulties, we adhered to the persistent pursuit of quality and innovative spirit, and continued to explore and try. By introducing advanced production technology and equipment and cultivating professional technical personnel, we have gradually accumulated rich production experience and professional knowledge. We continue to increase investment in research and development and are committed to improving product quality and performance. After countless experiments and improvements, we have successfully launched a series of automotive paint products with independent intellectual property rights, covering a variety of colors and functions, meeting the diverse needs of different customers.

In the past few decades, our factory has achieved many remarkable achievements. Our automotive paint products have not only been widely recognized and praised in the domestic market, but also successfully exported to many countries and regions, winning the favor of the international market.

We have established long-term and stable cooperative relations with many well-known automobile manufacturers, providing them with high-quality automotive paint solutions. At the same time, we actively participate in the formulation of industry standards and promote the advancement of industry technology, making important contributions to the development of the entire automotive paint industry.

Looking back on the past, we are deeply proud; looking forward to the future, we are full of confidence. We will continue to uphold the business philosophy of "quality first, innovation driven, customer first", constantly improve our own strength, provide customers with better products and services, and create more brilliance for the development of the automotive paint industry!
