

Benz DB723 Finish Paint Already Mixed Car Paint With Formula

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Benz
- Certification: ISO,MSDS,SGS
- Model Number: Benz DB723
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T, L/C
- Supply Ability: 500 boxes per day

Product Specification

- Product Name: Benz DB723
- Color: Silver
- Net Weight: 0.95KG
- Specification: 1Lx12
- Formula: Mekloncolormix
- Package: Carton
- Custom Made: 300L
- Resistance: Good
- Weather Resistance: Good
- Shelf Life: 3-5 Years
- Scratch Resistant: Yes
- Usage: Car Paint, Plastic Coating
- Safety Features: Non-toxic, Non-flammable
- Coating: Acrylic
- Environmentally Friendly: Low VOC Emissions

Product Description

Excellent quality

The use of high-quality raw materials and advanced production technology ensures that the paint layer has excellent adhesion and can be firmly attached to the surface of the car, effectively resisting scratches, wear and corrosion during daily driving, and providing long-term protection for the car.

It has good weather resistance and can maintain stable performance under various harsh environmental conditions such as high temperature, low temperature, humidity or ultraviolet radiation. It is not easy to fade, discolor or crack.

Accurate color

It is strictly formulated according to the standard color card of Mercedes-Benz DB723. The color is highly restored, showing a deep, elegant and unique color, which perfectly matches the brand image of Mercedes-Benz.

It has extremely high color consistency. The color of each batch of products can remain stable, ensuring that there will be no color difference when the whole vehicle is sprayed or partially repaired, and a perfect painting effect is achieved.

Outstanding effect

The paint layer formed after spraying is smooth and delicate, with excellent glossiness, which can bring a mirror-like bright effect to the surface of the car, and enhance the appearance texture and grade of the car.

It has good leveling properties, can flow evenly during the spraying process, automatically fills in minor surface defects, makes the car surface smoother and smoother, and shows the ultimate craftsmanship beauty.

Long shelf life

Under normal storage conditions, the shelf life of Benz DB723 car paint is 3-5 years. During the shelf life, the various performance indicators of the product can remain stable, ensuring that users can obtain satisfactory coating effects when using it.

Storage conditions

It should be stored in a cool, dry, well-ventilated environment, avoiding direct sunlight and high temperature and humidity. The storage temperature is recommended to be kept between 5°C - 35°C to prevent the paint from affecting performance due to excessively high or low temperatures.

Keep away from fire sources and flammable items to prevent safety accidents such as fire or explosion. At the same time, avoid mixing with other chemicals to prevent chemical reactions that may lead to a decline in product quality.

Meklon Car Paint Manufacturers provides you with high-quality Benz DB723 car paint with a professional technical team and a strict quality control system. We are committed to meeting the needs of our customers. We not only provide various colors for Benz DB723 but also various models, and provide a complete series of matching mixing formulas. Customers can not only purchase our finished paints directly, but also purchase 1K, 2K color paints, varnishes, hardeners, and thinners to mix by themselves. We provide color cards, professional mixing instructions and formula software.

Company Introduction:

Meklon is a manufacturer of automotive repair materials with 20 years of industry experience. The factory covers an area of 3,000 square meters and is equipped with internationally advanced production equipment and a professional R&D team. It has passed ISO 9001 quality management system certification, ISO 14001 environmental management system certification and many other authoritative certifications to ensure stable and reliable product quality and green and environmentally friendly production processes. At the same time, we have established a complete supply chain management system, strictly controlled the procurement of raw materials and production processes, and have mature production processes and strict quality inspection standards, which can provide customers with efficient and stable product supply.

High production efficiency: By optimizing production processes, strengthening management and technological innovation, we continuously improve production efficiency and reduce production costs.

Staff: We have more than 200 professional production staff who are experienced and skilled, and can guarantee the quality and production progress of our products. In addition, there are 8 R&D masters who are committed to the development of new products and technological innovation; 10 sales teams who actively expand the market and provide customers with high-quality products and services; 20 after-sales staff who promptly solve customer problems and feedback to ensure customer satisfaction.

Export cooperation:

As the world's leading professional automotive paint manufacturer, Meklon has always led the industry development with excellent quality and innovative technology. With deep technical accumulation and a perfect service system, we have not only won wide recognition in the market, but also demonstrated strong competitiveness on the international stage.

In terms of export scale, Meklon continues to maintain a high-speed growth trend. In recent years, the monthly export volume has steadily increased, with an average monthly export volume of more than 5,000 tons, and its products are sold well in all continents around the world. Such a huge export volume not only demonstrates our strong production capacity and supply chain management capabilities, but also represents the global market's high trust in Meklon automotive paint.

At present, we have established long-term and stable cooperative relations with large distributors in Russia, Kazakhstan, Nigeria, Iraq, Cameroon, Chile and other countries. In Russia, our dealers relied on Meklon's high-quality automotive paint products to quickly seize market share and significantly increase their market share in the local automotive repair paint field;

Partners gave high praise

Russian dealers said: "Meklon's automotive paint is not only of excellent quality, but also can quickly respond to market demand and adjust product supply in a timely manner. It is our most reliable partner." Nigerian partners praised: "Their products are extremely stable, and the after-sales service team is professional and efficient, so we have no worries in the market competition."

Meklon provides all-round support for dealer partners. Including professional technical training to help dealer teams master product characteristics and construction processes; customized marketing plans to help dealers quickly open up the local market; flexible supply policies to ensure timely and stable supply of products.

Choosing Meklon means choosing to go with the industry's strong players. We look forward to working with more dealers to share the dividends of the global automotive paint market development and create a brilliant future together!
