

## Ultra-Durable Transparent Red Car Paint And Scratch-Resistant, UV-Protection And Cost-Effective For Automotive Refinishing And Customization

### Our Product Introduction

for more products please visit us on [refinishcarpaint.com](http://refinishcarpaint.com)

#### Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: MK127
- Minimum Order Quantity: 50L
- Price: 2.73/LUSD-5.56/LUSD
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

#### Product Specification

- Uv Resistant: Yes
- Coats Required: 2-3
- Uv Protection: Yes
- Uv Resistance: Yes
- Series: CarCharm Series
- Voc: Low
- Product: Ready Mixed Paint
- Product Type: Automotive Paint

## Product Description

### Ultra-Durable Transparent Red Car Paint And Scratch-Resistant, UV-Protection And Cost-Effective For Automotive Refinishing And Customization

#### Product Introduction

Charaterastic	Our Product	Ordinary transparent red car paint
Surface	9H	2-3H
UV Resistant Aging	≤2(5 Years)	≥5(2 Years)
Single Layer Coverage Rate	8-10 /L	4-5 /L
Drying Time	≤25min	≥60min
VOC Emission	≤350g/L	≥500g/L

#### Manufacture Introduction

Meklon has a professional methods team dedicated to developing and improving automotive paint formulations and manufacturing processes. They work closely with materials scientists, chemical engineers and industry experts to ensure the automotive paint they produce is of exceptional quality and performance.

Our company has a modern factory equipped with advanced equipment and production lines for the production of various types of automotive paint. The factory adopts strict quality control measures to ensure that each batch of products meets high standards and meets customer needs.

The company maintains an independent research and development laboratory to test and evaluate the performance and durability of automotive paints. The laboratory is equipped with advanced instruments and equipment and can conduct many experiments such as color matching, chemical analysis, weather resistance testing, etc. to ensure the quality and stability of the product.

The company has an experienced production team consisting of more than 200 employees. They are familiar with the production process of automotive paint and strictly follow the company's standard operating procedures for production. The production team pays attention to details and quality control to ensure that every bottle and barrel of automotive paint meets high-quality requirements.
