## Product Description

### Manufacture Advantages

Meklon's production staff have undergone rigorous professional training, and carefully create each automotive paint product with a high sense of responsibility and superb craftsmanship. From the beginning of the purchase of raw materials, we strictly control to ensure that only high-quality and environmentally friendly raw materials are selected. Our raw material procurement staff works closely with high-quality suppliers around the world to ensure a stable supply and high quality of raw materials.

### Question

1. Does the system contain recipes for different OEM color formulas?

Yes, note that this system contains all the recipes of the automotive market, for example, Nissan, Honda, Toyota, Ford, Chrysler, Fiat, Citroen, etc.

2. Is the color formula software on the CD of the power distributor?

Yes, we have an app for mobile phones and Android, a PC version for Windows, and a web online version of the formula retrieval system.

3. Can the color code be updated online?

Our color code is updated daily, and it syncs with the server in real-time. We have more than 20 colorists working on it.

4. Do you provide mixers and color chips?

Yes, we have, it depends on the order quantity, our products need a large number of mixers and color chips.

5. Is there a RAL formula for System-2k?

Yes, we have the RAL formula.

6. Is the system 1k mixing ratio 1:1?

Yes, toner (pigment): Thinner = 1:1 (vol)

7. Is it possible to send samples of toner, clear coat, primer and polyester putty?

Yes, we can provide some samples for you to do some sample testing.

8. What support can you provide to distributors?

We provide color sheets, mixers, formulation systems, promotional materials such as t-shirts, hats, etc.; In addition, customers can come to our training center for product training. If the customer base is large enough, we will provide training to everyone in your country
