Product Description

Product Description

Detail ed	Detailed description
Product Position	The popular high gloss sunshine yellow car paint is designed for customers who pursue a bright and energetic appearance. It combines high glossiness and fast drying characteristics, and is suitable for all vehicle refurbishment/modification
Core Selling Points	<p>High gloss dazzling: Glossy paint surface has a reflectivity of $\geq 90\%$, presenting a mirror like transparent texture, making it even more dazzling under sunlight, with strong visual impact.</p> <p>Fast Drying: With the support of Fast Drying technology, surface drying only takes 5-8 minutes (20-25 environment), and hard drying takes 2-3 hours, greatly reducing the construction period and suitable for batch operations or emergency repairs.</p> <p>Weather resistant protection: Built in UV stabilizer, excellent UV resistance, long-term exposure without fading or yellowing, maintaining brightness for 3 years+.</p>
Applicable scenarios	Full model exterior painting, partial repair, sports modification, and original factory level high gloss decoration of the new car
Technical Parameter	<p>Surface drying: 5-8 minutes (room temperature 20-25 , humidity $\leq 60\%$)</p> <p>Hard drying: 2-3 hours (light touch, non stick to hands)</p> <p>Complete curing: 24 hours (achieving optimal hardness and weather resistance)</p> <p>-Construction method: Suitable for spray gun spraying (recommended) or rolling coating (special requirements)</p> <p>-Film thickness: It is recommended to apply a single layer thickness of 15-20 μm and a total thickness of 30-40 μm (2-3 thin layers for better coating effect)</p> <p>-VOC content: $\leq 350\text{g/L}$ (in compliance with international environmental standards)</p>
