Product Description

Product Introduction

Meklon's Harmless Orange Car Paint combines vibrant, eye-catching color with superior safety and durability. This high-performance formula uses low-VOC, eco-friendly ingredients, ensuring minimal environmental impact and compliance with global safety standards—making it ideal for automotive repairs, custom designs, or hobbyist projects. The rich orange hue delivers intense chroma and UV resistance, resisting fading even under prolonged sunlight exposure. Its fast-drying acrylic base ensures smooth application, strong adhesion, and a glossy finish that enhances vehicle aesthetics. Designed for both professionals and DIY enthusiasts, this paint balances bold style with responsible chemistry, offering reliable protection and vibrant longevity for any car customization project.

Company Introduction:

Meklon is a professional automotive paint company with more than 20 years of experience in factory operation. Meklon is a large manufacturer in China. Its products are sold in the form of wholesale and exported to Africa, Asia, the Middle East, South America, and various countries. We are experienced, and our production equipment is advanced, the production line is complete, and we use high-end raw materials and have highly skilled engineers. The company team has multiple departments, and is very complete in a series of departments such as R&D, testing, production, sales, and after-sales. It has a complete management system to ensure product quality and customer service. Meklon has developed in an orderly manner and is getting better and better.

And we support OEM, with 5L, 4L, 2.5L, 1L, 0.5L packaging. We have a lot of customers who also customize their own brands. We support it very much. We have professional designers who can design your own brand for you. If you have your own brand design, you can also send us samples and we can customize your brand.
